This Information Memorandum is dated 27 March 2013

## **Purpose**

This Information Memorandum has been prepared solely in connection with the AFG 2013-1 Trust in respect of Series 2013-1 (the “**Series**”). This Information Memorandum relates solely to a proposed issue of Class A Notes, Class AB Notes and Class B Notes (together, the “**Offered Notes**”) by the Issuer. This Information Memorandum does not relate to, and is not relevant for, any other purpose than to assist the recipient to decide whether to proceed with a further investigation of the Offered Notes. This Information Memorandum contains information relating to the Class C Notes (which are to be issued on the Closing Date) and Redraw Notes (which may be issued by the Issuer in certain circumstances after the Closing Date). Class C Notes and Redraw Notes are not Offered Notes for the purposes of this Information Memorandum. No invitation for subscriptions for Class C Notes and Redraw Notes is being made by this Information Memorandum.

This Information Memorandum is not intended to provide the sole basis of any credit or other evaluation and it does not constitute a recommendation, offer or invitation to purchase the Offered Notes by any person.

Potential investors in the Offered Notes should read this Information Memorandum and the Transaction Documents and, if required, seek advice from appropriately authorised and qualified advisers prior to making a decision whether or not to invest in the Offered Notes.

This Information Memorandum contains only a summary of the terms and conditions of the Transaction Documents, the Trust and the Series. If there is any inconsistency between this Information Memorandum and the Transaction Documents, the Transaction Documents should be regarded as containing the definitive information. With the approval of the Manager, a copy of the Transaction Documents for the Series may be inspected by potential investors or Noteholders in respect of the Trust at the office of the Manager on a confidential basis, by prior arrangement during normal business hours.

## **No guarantee and Notes are not deposits**

The Offered Notes will be the obligations solely of Perpetual Corporate Trust Limited in its capacity as trustee of the Trust in respect of the Series and do not represent obligations of or interests in, and are not guaranteed by, Perpetual Corporate Trust Limited in its personal capacity or as trustee of any other trust, series or any affiliate of Perpetual Corporate Trust Limited.

The Offered Notes do not represent deposits with, or any other liability of, National Australia Bank Limited (“**NAB**”) (in any capacity, including without limitation in its capacity as the Arranger, Lead Manager, Dealer, Counterparty or Liquidity Facility Provider), or any of its Related Entities. Neither NAB nor any of its Related Entities guarantees or is otherwise responsible for the payment of interest or the repayment of principal due on the Offered Notes, the performance of the Offered Notes or the Series Assets or any particular rate of capital or income return on the Offered Notes.

The holding of Offered Notes is subject to investment risk, including possible delays in repayment and loss of income and principal invested. Investors should carefully consider the risk factors set out in Section 3 (“Risk Factors”).

## **Responsibility for information contained in the Information Memorandum**

None of the Issuer, the Security Trustee, the Servicer, the Standby Servicer, the Originator, the Counterparty, the Liquidity Facility Provider, the Arranger, the Dealer or the Lead Manager have authorised or caused the issue of this Information Memorandum (and expressly disclaim any responsibility for any information contained in this Information Memorandum) and none of them has separately verified the information contained in this Information Memorandum except, in each case, with respect to the information for which they are expressed to be responsible in this Information Memorandum (if any).

The Manager accepts responsibility for the information contained in this Information Memorandum. To the best of the knowledge and belief of the Manager (and the Manager has taken all reasonable care to ensure that such is the case), the information contained in this Information Memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information.

No representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by any of the Manager, the Issuer, the Security Trustee, the Originator, the Servicer, the Standby Servicer, the Counterparty, the Liquidity Facility Provider, the Arranger, the Dealer, the Lead Manager, S&P and Fitch or their respective Related Entities or any person affiliated with any of them (each a “**Relevant Person**”) as to the accuracy or completeness of any information contained in this Information Memorandum (except, in each case, as expressly stated in this Information Memorandum) or any other information supplied in connection with the Offered Notes or their distribution.

Each person receiving this Information Memorandum acknowledges that such person has not relied on any Relevant Person in connection with its investigation of the accuracy of the information in this Information Memorandum or its investment decisions.

No person has been authorised to give any information or to make any representations other than as contained in this Information Memorandum and the documents referred to in this Information Memorandum in connection with the issue or sale of the Offered Notes and, if given or made, such information or representation must not be relied upon as having been authorised by any Relevant Person.

This Information Memorandum has been prepared by the Manager based on information available to it and the facts and circumstances existing as at 27 March 2013 (“**Preparation Date**”). The Manager has no obligation to update this Information Memorandum after the Preparation Date having regard to information which becomes available, or facts and circumstances which come to exist, after the Preparation Date.

Neither the delivery of this Information Memorandum nor any sale made in connection with this Information Memorandum shall, under any circumstances, create any implication that there has been no change in the affairs of the Trust or the Issuer since the Preparation Date or the date upon which this Information Memorandum has been most recently amended or supplemented or that any other information supplied in connection with the Offered Notes is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing such information.

No Relevant Person undertakes to review the financial condition or affairs of the Trust or the Series during the life of the Offered Notes or to advise any investor or potential investor in the Offered Notes of any changes in, or matters arising or coming to their attention which may affect, anything referred to in this Information Memorandum.

It should not be assumed that the information contained in this Information Memorandum is necessarily accurate or complete in the context of any offer to subscribe for, or an invitation to subscribe for, or buy any of, the Offered Notes at any time after the Preparation Date, even if this Information Memorandum is circulated in conjunction with the offer or invitation.

### **No financial product advice**

Neither this Information Memorandum nor any other information supplied in connection with the Offered Notes is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any Relevant Person that any recipient of this Information Memorandum, or of any other information supplied in connection with the Offered Notes, should purchase any of the Offered Notes. Each investor contemplating purchasing any of the Offered Notes should make its own independent investigation of the Issuer, the Trust, the Series Assets and the Offered Notes and each investor should seek its own tax, accounting and legal advice as to the consequence of investing in any of the Offered Notes. No Relevant Person accepts any responsibility for, or makes any representation as to the tax consequences of investing in the Offered Notes.

### **Limited recourse and series segregation**

The Offered Notes issued by the Issuer are limited recourse instruments and are issued only in respect of the Trust, as it relates to the Series.

All claims against the Issuer in relation to the Offered Notes may, except in limited circumstances, be satisfied only out of the Series Assets secured under the General Security Deed and the Security Trust Deed, and are limited in recourse to distributions with respect to such Series Assets from time to time.

The Series Assets are not available in any circumstances to meet any obligations of the Issuer in respect of any Other Trust or any Other Series and if, upon enforcement of the General Security Deed, sufficient funds are not realised to discharge in full the obligations of Issuer in respect of the Series, no further claims may be made against the Issuer in respect of such obligations and no claims may be made against any assets in respect of any Other Trust or any Other Series or, except in in circumstances of fraud, negligence or wilful default by the Issuer, any of the personal assets of the Issuer.

### **No disclosure under Corporations Act**

This Information Memorandum is not a “Product Disclosure Statement” or a “Prospectus” for the purposes of the Corporations Act and is not required to be lodged with the Australian Securities and Investments Commission (“ASIC”). Nor will any disclosure document (as defined in the Corporations Act) be lodged with ASIC in respect of the Notes. This Information Memorandum has not been prepared specifically for investors in Australia and is not required to, and does not, contain all of the information which would be required in a disclosure document. Accordingly, a person may not (directly or indirectly) offer for subscription or purchase or issue invitations to subscribe for or buy or sell the Offered Notes, or distribute this Information Memorandum where such offer, issue or distribution is received by a person in the Commonwealth of Australia, its territories or possessions (“Australia”), except if:

- (a) either:
  - (i) the amount payable by the transferee in relation to the relevant Offered Notes is A\$500,000 or more (or its equivalent in an alternate currency, and in either case, disregarding moneys lent by the offeror or its associates); or
  - (ii) the offer is to a professional investor for the purposes of section 708 of the Corporations Act; or
  - (iii) the offer or invitation to the transferee is otherwise an offer or invitation that does not require disclosure to investors in accordance with Part 6D.2 or Part 7.9 of the Corporations Act;
- (b) the offer or invitation does not constitute an offer to a “retail client” under Chapter 7 of the Corporations Act (including, without limitation the financial services licensing requirements of the Corporations Act); and
- (c) the offer or invitation complies with all applicable laws, regulations and directives; and
- (d) such action does not require any document to be lodged with ASIC or any other regulatory authority in Australia.

### **Disclosure**

Each Relevant Person discloses with respect to itself that it, in addition to the arrangements and interests it will or may have with respect to the Manager, the Disposing Trustee, the Servicer and Perpetual Corporate Trust Limited in its capacity as trustee of the Trust in respect of the Series and as Standby Servicer in respect of the Series (together, the “Group”), as described in this Information Memorandum (the “**Transaction Document Interests**”) its Related Entities, directors and employees:

- (a) may from time to time, be a Noteholder or have other interests with respect to the Offered Notes and they may also have interests relating to other arrangements with respect to a Noteholder or an Offered Note; and

- (b) may receive fees, brokerage and commissions or other benefits, and act as principal with respect to any dealing with respect to any Offered Notes,

(the “**Note Interests**”).

Each purchaser of Offered Notes acknowledges these disclosures and further acknowledges and agrees that:

- (c) each Relevant Person and each of its Related Entities, directors and employees (each a “**Relevant Entity**”) will or may from time to time have the Transaction Document Interests and may from time to time have the Note Interests and is, and from time to time may be, involved in a broad range of transactions including, without limitation, banking, dealing in financial products, credit, derivative and liquidity transactions, investment management, corporate and investment banking and research (the “**Other Transactions**”) in various capacities in respect of any member of the Group, both on the Relevant Entity’s own account and/or for the account of other persons (the “**Other Transaction Interests**”); and
- (d) each Relevant Entity in the course of its business (whether with respect to the Transaction Document Interests, the Note Interests, the Other Transaction Interests or otherwise) may act independently of any other Relevant Entity; and
- (e) to the maximum extent permitted by applicable law, the duties of each of the Arranger, the Dealer, the Lead Manager, the Counterparty and the Liquidity Facility Provider (the “**Finance Parties**”) and each of their Related Entities, directors and employees in respect of the Offered Notes are limited to the contractual obligations of the Finance Parties to the Manager and Perpetual Corporate Trust Limited in its capacity as trustee of the Trust in respect of the Series as set out in the relevant Transaction Documents and, in particular, no advisory or fiduciary duty is owed to any person; and
- (f) a Relevant Entity may have or come into possession of information not contained in this Information Memorandum regarding any member of the Group that may be relevant to any decision by a potential investor to acquire the Offered Notes and which may or may not be publicly available to potential investors (“**Relevant Information**”); and
- (g) to the maximum extent permitted by applicable law, no Relevant Entity is under any obligation to disclose any Relevant Information to any potential investor and this Information Memorandum and any subsequent course of conduct by a Relevant Entity should not be construed as implying that the Relevant Entity is not in possession of such Relevant Information; and
- (h) each Relevant Entity may have various potential and actual conflicts of interest arising in the course of its business including in respect of the Transaction Document Interests, the Note Interests or the Other Transaction Interests. For example, the exercise of rights against a member of the Group arising from the Transaction Document Interests or from an Other Transaction may affect the ability of the Group member to perform its obligations in respect of the Offered Notes. In addition, the existence of the Transaction Document Interests or Other Transaction Interests may affect how a Relevant Entity as a Noteholder may seek to exercise any rights it may have as a Noteholder. These interests may conflict with the interests of the Group or a Noteholder and a Noteholder may suffer loss as a result. To the maximum extent permitted by applicable law, a Relevant Entity is not restricted from entering into, performing or enforcing its rights in respect of the Transaction Document Interests, the Note Interests or the Other Transaction Interests and may otherwise continue to take steps to further or protect any of those interests and its business even where to do so may be in conflict with the interests of Noteholders or the Group and the Relevant Entities may in so doing act without notice to, and without regard to, the interests of any such person.

### **Selling restrictions**

The distribution of this Information Memorandum and the offering or sale of the Offered Notes in certain jurisdictions may be restricted by law. The Relevant Persons do not represent that this Information Memorandum may be lawfully distributed, or that the Offered Notes may be lawfully

offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been or will be taken by any Relevant Person that would permit a public offer of the Offered Notes in any country or jurisdiction where action for that purpose is required.

Accordingly, the Offered Notes may not be offered or sold, directly or indirectly, and neither this Information Memorandum nor any information memorandum, private placement memorandum, prospectus, form of application, advertisement or other offering material may be issued or distributed or published in any country or jurisdiction, except in circumstances that will result in compliance with all applicable laws and regulations. Persons into whose possession this Information Memorandum comes are required by the Issuer and the Manager to inform themselves about and to observe any such restrictions. In particular, see Section 14 (“Subscription and Sale”).

### **Capital Requirements Directive**

Article 122a of European Union Directive 2006/48/EC (as implemented by the Member States of the European Economic Area (“**EEA**”) (the “**CRD**”)) applies, in general, to newly issued securitisations after 31 December 2010. Article 122a restricts an EEA regulated credit institution and consolidated group affiliates thereof (each, an “**Affected Investor**”) from investing in a securitisation (as defined by the CRD) unless the originator, sponsor or original lender in respect of that securitisation has explicitly disclosed to the Affected Investor that it will retain, on an ongoing basis, a net economic interest of not less than 5% in that securitization in the manner contemplated by Article 122a.

Article 122a also requires that an Affected Investor be able to demonstrate that it has undertaken certain due diligence in respect of, amongst other things, the Offered Notes it has acquired and the underlying exposures, and that procedures have been established for monitoring the performance of the underlying exposures on an on-going basis. Failure to comply with one or more of the requirements set out in Article 122a may result in the imposition of a penal capital charge with respect to the investment made in the securitisation by the relevant Affected Investor.

Neither AFGS nor any other person in connection with this transaction undertakes to retain, either on an ongoing basis or for any period, any net economic interest in this securitisation transaction for the purposes of Article 122a. Accordingly, the Offered Notes may not be a suitable investment for prospective investors who are Affected Investors.

Prospective investors who are uncertain as to the requirements under Article 122a which apply to them in respect of their relevant jurisdiction, should seek guidance from their regulator.

### **Credit Ratings**

There are references in this Information Memorandum to ratings. A rating is not a recommendation to buy, sell or hold securities, nor does it comment as to principal prepayments, market price or the suitability of securities for particular investors. A rating may be changed, suspended or withdrawn at any time by the relevant Rating Agency.

Ratings are for distribution only to a person (a) who is not a “retail client” within the meaning of section 761G of the Corporations Act and is also a sophisticated investor, professional investor or other investor in respect of whom disclosure is not required under Part 6D.2 or 7.9 of the Corporations Act, and (b) who is otherwise permitted to receive ratings in accordance with applicable law in any jurisdiction in which the person may be located. Anyone who is not such a person is not entitled to receive the Information Memorandum and anyone who receives the Information Memorandum must not distribute it to any person who is not entitled to receive it.

The credit ratings of the Notes should be evaluated independently from similar ratings on other types of notes or securities. A rating does not address the market price or the suitability for a particular investor of the Notes.

### 3 RISK FACTORS

*The purchase and holding of the Notes is not free from risk. This section describes some of the principal risks associated with the Notes. It is only a summary of some particular risks. There can be no assurance that the structural protection available to Noteholders will be sufficient to ensure that a payment or distribution of a payment is made on a timely or full basis. Prospective investors should read the Transaction Documents and make their own independent investigation and seek their own independent advice as to the potential risks involved in purchasing and holding the Notes.*

#### **Risk factors relating to the Notes**

##### **The Notes will only be paid from the Series Assets**

The Issuer will issue the Notes in its capacity as trustee of the Trust in respect of the Series.

The Issuer will be entitled to be indemnified out of the Series Assets for all payments of interest and principal in respect of the Notes.

A Noteholder's recourse against the Issuer with respect to the Notes is limited to the amount by which the Issuer is indemnified from the Series Assets. Except in the case of, and to the extent that a liability is not satisfied because the Issuer's right of indemnification out of the Series Assets is reduced as a result of, fraud, negligence or wilful default of the Issuer, no rights may be enforced against the Issuer by any person and no proceedings may be brought against the Issuer except to the extent of the Issuer's right of indemnity and reimbursement out of the Series Assets. Except in those limited circumstances, the assets of the Issuer in its personal capacity are not available to meet payments of interest or principal in respect of the Notes.

If the Issuer is denied indemnification from the Series Assets, the Security Trustee will be entitled to enforce the General Security Deed in respect of the Series and apply the Secured Property for the benefit of the Secured Creditors of the Series (which includes the relevant Noteholders). The Security Trustee may incur costs in enforcing the General Security Deed, with respect to which the Security Trustee will be entitled to indemnification. Any such indemnification will reduce the amounts available to pay interest on and repay principal of the Notes.

In no circumstances will the assets of any Other Trust or Other Series be available to meet any obligations of the Issuer in respect of the Notes of the Series.

##### **Limited Credit Enhancements**

The amount of credit enhancement provided through the Mortgage Insurance Policies, excess Total Available Income, the Extraordinary Expense Reserve, the Liquidity Facility and subordination of:

- the Class AB Notes, Class B Notes, Class C Notes to the Class A Notes and the Redraw Notes;
- the Class B Notes, Class C Notes to the Class AB Notes; and
- the Class C Notes to the Class B Notes,

is limited and could be depleted prior to the payment in full of the Notes. If the Mortgage Insurance Policies

do not provide coverage for all losses incurred in respect of a Series Receivable and if there is insufficient excess Total Available Income to make the Issuer whole in respect of any such losses or if the aggregate Stated Amount of any subordinated classes of Notes is reduced to zero, Noteholders may suffer losses on their Notes.

**You may not be able to sell the Notes**

There is currently no secondary market for the Notes and no assurance can be given that a secondary market in the Notes will develop, or, if one does develop, that it will provide liquidity of investment or will continue for the life of the Notes.

No assurance can be given that it will be possible to effect a sale of the Notes, nor can any assurance be given that, if a sale takes place, it will not be at a discount to the acquisition price or the Invested Amount of the Notes.

**There is no way to predict the actual rate and timing of principal payments on the Notes**

Whilst the Issuer is obliged to repay the Notes by the Maturity Date, principal may be passed through to Noteholders on each Payment Date from the Total Available Principal and such amount will reduce the principal balance of the Notes. However, no assurance can be given as to the rate at which principal will be passed through to Noteholders. Accordingly, the actual date by which Notes are repaid cannot be precisely determined.

The timing and amount of principal which will be passed through to Noteholders will be affected by the rate at which the Series Receivables are repaid or prepaid, which may be influenced by a range of economic, demographic, social and other factors, including:

- the level of interest rates applicable to the Series Receivables relative to prevailing interest rates in the market;
- the delinquencies and default rate of Debtors under the Series Receivables;
- demographic and social factors such as unemployment, death, divorce and changes in employment of Debtors;
- the rate at which Debtors sell or refinance their properties;
- the degree of seasoning of the Series Receivables; and
- the loan-to-valuation ratio of the Debtors' properties at the time of origination of the relevant Purchased Receivables.

The Noteholders may receive repayments of principal on the Notes earlier or later than would otherwise have been the case or may not receive repayments

of principal at all.

Other factors which could result in early repayment of principal to Noteholders include:

- receipt by the Issuer of enforcement proceeds due to a Debtor having defaulted on its Series Receivable;
- receipt by the Issuer of damages by the Manager as a result of a breach of certain representations as described in Section 5.4 ("Remedy for misrepresentations");
- the sale of a Series Receivable by the Issuer in the circumstances described in Section 5.5 ("Sale of Series Receivables by the Issuer");
- exercise of the Call Option on a Call Option Date; and
- receipt of proceeds of enforcement of the General Security Deed prior to the Maturity Date of the Notes.

In addition:

- Total Available Principal may be used to fund payment delinquencies (in the form of Principal Draws); and
- Collections, interest earned on Authorised Investments and Other Income may be applied by the Issuer at the direction of the Manager) during a Collection Period towards funding Redraws made by Debtors under the terms of the relevant Series Receivable in the circumstances described in Section 11.2 ("Distributions during a Collection Period").

The utilisation of funds by the Issuer for these purposes will slow the rate at which principal will be passed through to Noteholders.

**Reinvestment risk on payments received during a Collection Period**

If a prepayment is received on a Series Receivable during a Collection Period, then to the extent it is not applied towards funding Redraws where permitted at any time, then interest will cease to accrue on that part of the Series Receivable prepaid from the date of the prepayment. The amount repaid will be deposited into the Collection Account or invested in Authorised Investments and may earn interest at a rate less than the then rate on the Series Receivables.

Interest will, however, continue to be payable in respect of the Invested Amount of the Notes until the next Payment Date. Accordingly, this may affect the ability of the Issuer to pay interest in full on the Notes. The Issuer has access to Principal Draws, Extraordinary Expense Reserve Draws and the amount available under the Liquidity Facility to

finance such shortfalls in interest payments to the Noteholders of the Class A Notes, the Redraw Notes, the Class AB Notes and the Class B Notes.

**The redemption of the Notes on the Call Option Date may affect the return on the Notes**

There is no assurance that the Series Assets will be sufficient to redeem the Notes on a Call Option Date or that the Manager will exercise its discretion and direct the Issuer to redeem the Notes on a Call Option Date.

The Manager has the right under the Issue Supplement to direct the Issuer to sell any or all of the Series Receivables to any person in order to raise sufficient funds to redeem all of the Notes on a Call Option Date at their aggregate Invested Amount.

**Investment in the Notes may not be suitable for all investors**

The Notes are not a suitable investment for any investor that requires a regular or predictable schedule of payments or payment on any specific date. The Notes are complex investments that should be considered only by investors who, either alone or with their financial, tax and legal advisors, have the expertise to analyse the prepayment, reinvestment, default and market risk, the tax consequences of an investment, and the interaction of these factors.

Mortgage-backed securities, like the Notes, usually produce more returns of principal to investors when market interest rates fall below the interest rates on the Series Receivables and produce less returns of principal when market interest rates rise above the interest rates on the Series Receivables. If borrowers refinance their Series Receivables as a result of lower interest rates, Noteholders may receive an unanticipated payment of principal. As a result, Noteholders are likely to receive more money to reinvest at a time when other investments generally are producing a lower yield than that on the Notes and are likely to receive less money to reinvest when other investments generally are producing a higher yield than that on the Notes. Noteholders will bear the risk that the timing and amount of payments on the Notes will prevent you from attaining the desired yield.

**Ratings on the Notes**

The credit ratings of the Notes should be evaluated independently from similar ratings on other types of notes or securities. A credit rating by a Rating Agency is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension, qualification or withdrawal at any time by the relevant Rating Agency.

A revision, suspension, qualification or withdrawal of the credit rating of the Notes may adversely affect the price of the Notes. In addition, the credit ratings of the Notes do not address the expected timing of principal repayments under the Notes, only the likelihood that principal will be received no later than the Maturity Date. No Rating Agency has been involved in the preparation of this Information Memorandum.

## ***Risk factors relating to the transaction parties***

### **The Manager is responsible for this Information Memorandum**

Except in respect of certain limited information, the Manager takes responsibility for this Information Memorandum, not the Issuer. As a result, in the event that a person suffers loss due to any information contained in this Information Memorandum being inaccurate or misleading, or omitting a material matter or thing, that person will not have recourse to the Issuer or the Series Assets.

### **Termination of Appointment of the Manager or the Servicer may affect the collection of the Series Receivables**

The appointment of each of the Manager and the Servicer may be terminated in respect of the Series in certain circumstances. If the appointment of one of them is terminated, a substitute will need to be found to perform the relevant role for the Series.

The retirement or removal of the Manager or the Servicer will only take effect once a substitute has been appointed and has agreed to be bound by the Transaction Documents.

There is no guarantee that such a substitute will be found or that the substitute will be able to perform its duties with the same level of skill and competence as any previous Manager or Servicer (as the case may be).

To minimise the risk of finding a suitable substitute Manager, the Issuer has, subject to certain terms and conditions in the Management Deed, agreed to:

- act as the Manager in respect of the Series from the effective date of retirement or termination of the appointment of the Manager until the appointment of a replacement Manager is complete; or
- call a meeting of Noteholders to give direction to the Issuer in connection with the appointment of a replacement Manager.

### **The Servicer may commingle collections on the Series Receivables with its assets**

Before the Disposing Trustee or the Servicer remits Collections to the Collection Account, the Collections may be commingled with the assets of the Disposing Trustee or Servicer. If the Disposing Trustee or the Servicer becomes insolvent, the Issuer may only be able to claim those Collections as an unsecured creditor of the insolvent company. This could lead to a failure to receive the Collections on the Series Receivables, delays in receiving the Collections, or losses to you.

### **The Servicer's ability to change the features of the Series Receivables may affect the payment on the Notes**

The Servicer may initiate certain changes to the Series Receivables. Most frequently, the Servicer will change the interest rate applying to a Series Receivable. In addition, subject to certain conditions, the Servicer may from time to time offer additional features and/or products with respect to the Series Receivables which are not described in this Information Memorandum.

As a result of such changes, the characteristics of the Series Receivables may differ from the

characteristics of the Series Receivables at any other time which may affect the timing and amount of payments the Noteholders receive. If the Servicer elects to change certain features of the Series Receivables this could result in different rates of principal repayment on the Notes than initially anticipated and Debtors may elect to refinance their loan with another lender to obtain more favourable features.

If the Servicer elects to fix the interest rate on a Series Receivable, there must either be a Derivative Contract in effect to hedge the interest rate risk to the Issuer arising from the fixed rate of interest payable by the Debtor to the Issuer and the floating rate of interest payable on the Notes (being based on the Bank Bill Rate which will vary from time to time) or the Manager must direct the Issuer to sell the relevant Series Receivable, as described further in Section 5.7 ("Fixed Rate Housing Loans").

If the Manager elects to sell the Series Receivable in these circumstances, this could result in a faster than expected rate of principal repayment on the Notes.

**The availability of various support facilities with respect to payment on the Notes will ultimately be dependent on the financial condition of the support facility provider**

NAB is acting as Liquidity Facility Provider and has agreed to act as Counterparty under the Interest Rate Swap Agreement. Accordingly, the availability of these various support facilities will ultimately be dependent on the financial strength of NAB (or any replacement in the event that NAB resigns or is removed from acting in any such capacities and a replacement is appointed).

There are however provisions in the Liquidity Facility Agreement and the Interest Rate Swap Agreement that provide for the replacement of NAB in its capacities as Liquidity Facility Provider and Counterparty or the posting of collateral or taking of other action by NAB, in the event that the ratings of NAB are reduced below certain levels provided for in the Liquidity Facility Agreement or Interest Rate Swap Agreement (as applicable).

There is no assurance that:

- the Issuer would be able to find a replacement for NAB in its capacities as Liquidity Facility Provider and Counterparty within the timeframes prescribed in the Liquidity Facility Agreement or Interest Rate Swap Agreement (as applicable); or
- (where applicable) NAB will post collateral in the full amount required under the terms of the Liquidity Facility Agreement or Interest Rate Swap Agreement (as applicable).

If NAB (or any replacement facility provider) encounters financial difficulties which impede or prohibit the performance of its obligations under the Liquidity Facility Agreement or (as applicable), the Issuer may not have sufficient funds to timely pay the full amount of principal and interest due on the Notes.

**The termination of any Derivative Contract may affect payment on the Notes**

If the Interest Rate Swap Agreement or any replacement Derivative Contract is terminated at a time when there are derivative transactions in place between the Issuer and the Counterparty, then:

- if any Series Receivables are subject to a fixed rate of interest, Noteholders will be exposed to the risk that the floating rate of interest payable with respect to the Notes will be greater than the fixed rate of interest on those Series Receivables;
- a termination payment by either the Issuer or the Counterparty may be payable. A termination payment could be substantial.

**Breach of Representation or Warranty**

AFGS will represent and warrant to the Issuer on the Closing Date that each Receivable and Related Security referred to in the Initial Reallocation Notice provided to the Issuer in connection with the acquisition by the Issuer of the Series Receivables is an Eligible Receivable. The Issuer has not investigated or made any enquiries regarding the accuracy of this representation and warranty. AFGS will be required to pay damages to the Issuer for any direct loss suffered by the Issuer in respect of any Series Receivable in respect of which there has been a breach of this representation and warranty. The maximum amount that AFGS is liable to pay with respect to that Series Receivable is the Outstanding Balance of the relevant Series Receivable plus any accrued but unpaid interest in respect of the Series Receivable at the time of payment of the damages.

***Risk factors relating to the Series Receivables***

**The Series Assets are limited**

The Series Assets consist primarily of the Series Receivables (which are Housing Loans and Related Securities).

If the Series Assets are not sufficient to make payments of interest or principal in respect of the Notes in accordance with the Cashflow Allocation Methodology, then payments to Noteholders will be reduced.

Accordingly a failure by Debtors to make payments on the Series Receivables when due may result in the Issuer having insufficient funds available to it to make full payments of interest and principal to the Noteholders. Consequently, the yield on the Notes could be lower than expected and Noteholders could suffer losses.

**Enforcement of Related Securities may cause delays in payments and losses**

If a Debtor defaults on payments to be made under a Series Receivable and the Servicer seeks to enforce any Related Security and/or sell the Land that is subject to that security, various factors may affect the length of time before the proceeds of sale (if any) are obtained. In such circumstances, the sale proceeds may be less than if the sale was carried out by the Debtor in the ordinary course. Any such delay and

any loss incurred as a result of the realised sale proceeds being less than the Outstanding Balance of the relevant Series Receivable and accrued but unpaid interest on that Series Receivable may affect the ability of the Issuer to make payments under the Notes.

### **Delinquency and Default rates**

There can be no assurance that delinquency and default rates affecting the Series Receivables will remain in the future at levels corresponding to historic rates for assets similar to the Series Receivables. In particular, if the Australian economy were to experience a downturn, an increase in unemployment, an increase in interest rates or any combination of these factors, delinquencies or default rates on the Series Receivables may increase, which may cause losses of the Notes.

### **Mortgage insurance policies may not be available to cover all losses on the applicable Series Receivables**

Mortgage insurance policies cover 100% of the Series Receivables pool (by loan balance as of the Cut-Off Date). The mortgage insurance policies are subject to some exclusions from coverage and rights of termination (which differ between each Lender's Mortgage Insurance Contract) that may allow that Mortgage Insurer to reduce a claim or terminate mortgage insurance cover in respect of a Series Receivable in certain circumstances. Any such reduction or termination may affect the ability of the Issuer to pay principal and interest on the Notes.

Furthermore, QBE Lender's Mortgage Insurance Limited is acting as a mortgage insurance provider with respect to approximately 10.76% of the Series Receivable pool (by loan balance as of the Cut-Off Date) and Genworth Financial Mortgage Insurance Pty Ltd is acting as a mortgage insurance provider with respect to approximately 89.24% of the Series Receivable pool (by loan balance as of the Cut-Off Date). The availability of funds under the Lender's Mortgage Insurance Contracts with these entities will ultimately be dependent on the financial strength of these entities.

Therefore, a Debtor's payments that are expected to be covered by a Lender's Mortgage Insurance Contract may not be covered because of these exclusions or because of financial difficulties impeding a Mortgage Insurer's ability to perform its obligations. There is no guarantee that a Mortgage Insurer will promptly make payment under any Lender's Mortgage Insurance Contract or that the Mortgage Insurer will have the necessary financial capacity to make any such payment at the relevant time.

As well, the rating of the Notes may be adversely affected in the event that a Mortgage Insurer is downgraded by either Rating Agency.

Substantial delays could be encountered in connection with the enforcement of a Series Receivable or Related Security and result in shortfalls

in distributions to Noteholders to the extent not covered by a Lender's Mortgage Insurance Contract or if the relevant Mortgage Insurer fails to perform its obligations. Further, enforcement expenses such as legal fees, real estate taxes and maintenance and preservation expenses (to the extent not covered by a Lender's Mortgage Insurance Contract) will reduce the net amounts recoverable by the Issuer from an enforced Receivable or Related Security.

In the event that any of the properties fail to provide adequate security for the relevant Series Receivable, Noteholders could experience a loss to the extent the loss was not covered by a Lender's Mortgage Insurance Contract or if the relevant Mortgage Insurer failed to perform its obligations under the relevant Lender's Mortgage Insurance Contract.

**Payment holidays may result in Investors not receiving their full interest payments**

In respect of certain Series Receivables, if the Debtor prepays principal on his or her loan, the Servicer may permit the Debtor to skip subsequent payments, including interest payments, provided that the Outstanding Balance of the Series Receivable is not less than the Scheduled Balance. If a significant number of Debtors take advantage of this practice at the same time, the Issuer may not have sufficient funds to pay Noteholders the full amount of interest on the Notes on the next Payment Date.

**Because interest accrues on the loans on a simple interest basis, interest payable may be reduced if Debtors pay instalments before scheduled due dates**

Interest accrues on the Series Receivables on a daily simple interest basis, *i.e.*, the amount of interest payable each weekly, bi-weekly or monthly period is based on each daily balance for the period elapsed since interest was last charged to the Debtor. Thus, if a Debtor pays a fixed instalment before its scheduled due date, the portion of the payment allocable to interest for the period since the preceding payment was made may be less than would have been the case had the payment been made as scheduled.

**The expiration of fixed rate interest periods may result in significant repayment increases and hence increased borrower defaults**

If Series Receivables are or become subject to a fixed rate of interest, the fixed rates for those Series Receivables will be set for a shorter time period (generally not more than 5 years) than the life of the loan (up to 30 years).

**Geographic concentration**

Section 4.1 ("Pool Receivables Data") contains details of the geographic concentration of the Indicative pool of Series Receivables as of the Cut-Off Date (from which the Receivables to be sold on the Closing Date will be selected). To the extent that any such region experiences weaker economic conditions in the future, this may increase the likelihood of Debtors with Series Receivables in that region missing payments or defaulting on those Series Receivables.

**Receivable pool characteristics**

If the Issuer makes any Redraws then:

- the characteristics of the pool of Receivables

may be altered; and

- the estimated average lives of the Notes may be altered.

### **Seasoning of Series Receivables**

Section 4.1 (“Pool Receivables Data”) contains details of the seasoning of the Series Receivables as of the Cut-Off Date. As of the Cut-Off Date, some of the Series Receivables may not be fully seasoned and may display different characteristics until they are fully seasoned. As a result, the Series may experience higher rates of defaults than if the Series Receivables had been outstanding for a longer period of time.

### **The Servicer’s ability to set the interest rate on variable-rate Series Receivables may lead to increased delinquencies or prepayments**

The interest rates on the variable-rate Series Receivables are not tied to an objective interest rate index, but are set at the sole discretion of the Servicer. If the Servicer increases the interest rates on the variable-rate Series Receivables, Debtors may be unable to make their required payments under the Series Receivables, and accordingly, may become delinquent or may default on their payments. In addition, if the interest rates are raised above market interest rates, Debtors may refinance their loans with another lender to obtain a lower interest rate. This could cause higher rates of principal prepayment than Noteholders expected and affect the yield on the Notes.

### ***Risk factors relating to security***

#### **Enforcement of General Security Deed**

If an Event of Default occurs while any Notes are outstanding, the Security Trustee may and, if directed to do so by an Extraordinary Resolution of Voting Secured Creditors, must, declare all amounts outstanding under the Notes immediately due and payable and enforce the General Security Deed in accordance with the terms of the General Security Deed and the Master Trust Deed. That enforcement may include the sale of the Series Assets.

No assurance can be given that the Security Trustee will be in a position to sell the Series Assets for a price that is sufficient to repay all amounts outstanding in relation to the Notes and other secured obligations that rank ahead of or equally with the Notes.

Neither the Security Trustee nor the Issuer will have any liability to the Secured Creditors in respect of any such deficiency (except in the limited circumstances described in the Master Trust Deed).

#### **Personal Property Security regime**

A new personal property securities regime commenced operation throughout Australia on 30 January 2012 pursuant to the Personal Property Securities Act 2009 (“PPSA”). The PPSA has established a national system for the registration of security interests in personal property and introduced new rules for the creation, priority and enforcement of security interests in personal property.

Security interests for the purposes of the PPSA include traditional securities such as charges and mortgages over personal property. However, they also include transactions that, in substance, secure payment or performance of an obligation but may not have previously been legally classified as securities. Further, certain other interests are deemed to be security interests whether or not they secure payment or performance of an obligation - these deemed security interests include assignments of certain monetary obligations

A person who holds a security interest under the PPSA will need to register (or otherwise perfect) the security interest to ensure that the security interest has priority over competing interests (and in some cases, to ensure that the security interest survives the insolvency of the grantor). If they do not do so, the consequences include the following:

- another security interest may take priority;
- another person may acquire an interest in the assets which are subject to the security interest free of their security interest; and
- they may not be able to enforce the security interest against a grantor who becomes insolvent.

Under the General Security Deed, the Issuer grants a security interest over all the Series Assets in favour of the Security Trustee to secure the payment of moneys owing to the Secured Creditors (including, among others, the Noteholders).

The security granted by the Issuer under the General Security Deed is a security interest under the PPSA. The Transaction Documents may also contain other security interests. There is uncertainty on aspects of the PPSA regime because the PPSA significantly alters the law relating to secured transactions. There are issues and ambiguities in respect of which a market view or practice will evolve over time.

Under the General Security Deed, the Issuer has agreed to not do anything to create any Encumbrances over the Series Assets (other than those which arise under any Transaction Document or which are expressly permitted under any Transaction Document or to which the Security Trustee consents at the direction of an Extraordinary Resolution of the Voting Secured Creditors).

However, under Australian law:

- dealings by the Issuer with the Series Assets in breach of such undertaking may nevertheless have the consequence that a third party acquires title to the relevant Series Assets free of the security interest created under the General Security Deed or another security interest over such Series Assets has priority over that security interest; and
- contractual prohibitions upon dealing with the Series Assets (such as those contained in

the General Security Deed) will not of themselves prevent a third party from obtaining priority or taking such Series Assets free of the security interest created under the General Security Deed (although the Security Trustee would be entitled to exercise remedies against the Issuer in respect of any such breach by the Issuer).

Whether this would be the case, depends upon matters including the nature of the dealing by the Issuer, the particular Series Asset concerned and the agreement under which it arises and the actions of the relevant third party.

**Voting Secured Creditors must act to effect enforcement of the General Security Deed**

If an Event of Default occurs and is continuing, the Security Trustee must convene a meeting of the Secured Creditors to obtain directions as to what actions the Security Trustee is to take under the General Security Deed and the Master Trust Deed. Any meeting of Secured Creditors will be held in accordance with the terms of the Master Trust Deed. However, for these purposes, only the Voting Secured Creditors are entitled to vote at a meeting of Secured Creditors or to otherwise direct or give instructions or approvals to the Security Trustee in accordance with the Transaction Documents.

Accordingly, if the Voting Secured Creditors have not directed the Security Trustee to do so, enforcement of the General Security Deed will not occur, other than where in the opinion of the Security Trustee, the delay required to obtain instructions from the Voting Secured Creditors would be materially prejudicial to the interests of those Voting Secured Creditors and the Security Trustee has determined to take action (which may include enforcement) without instructions from them.

If at any time there is a conflict between a duty the Security Trustee owes to a Secured Creditor, or a class of Secured Creditor, of the Trust and a duty the Security Trustee owes to another Secured Creditor, or class of Secured Creditor, of the Trust, the Security Trustee must give priority to the duties owing to the Voting Secured Creditors.

***Risk factors relating to legal and regulatory risks and other matters***

**Australian Taxation**

A summary of certain material tax issues is set out in Section 13.1 (“Australian Taxation”).

**Consumer protection laws and codes may affect the timing or amount of interest or principal payments to you**

***National Consumer Credit Protection Act***

The National Consumer Credit Protection Act (“NCCP”), which includes a National Credit Code (“**National Credit Code**”), commenced on 1 July 2010.

The NCCP incorporates a requirement for providers of credit related services to hold an “Australian credit licence”, and to comply with “responsible lending” requirements, including a mandatory “unsuitability assessment” before a loan is made or there is an

agreed increase in the amount of credit under a loan. Obligations under the NCCP extend to the Issuer and its service providers (including the Servicer) in respect of the Series Receivables.

Under the terms of the National Credit Code and the NCCP, the Issuer is a “credit provider” with respect to regulated loans, and as such is exposed to civil and criminal liability for certain violations. These include violations caused in fact by the Servicer. The Servicer has indemnified the Issuer for any civil or criminal penalties in respect of National Credit Code or NCCP violations caused by the Servicer. There is no guarantee that the Servicer will have the financial capability to pay any civil or criminal penalties which arise from National Credit Code or NCCP violations.

If for any reason the Servicer does not discharge its obligations to the Issuer, then the Issuer will be entitled to indemnification from the Series Assets. Any such indemnification may reduce the amounts available to pay interest and repay principal in respect of the Offered Notes.

Under the National Credit Code and the NCCP, a borrower in respect of a regulated Series Receivable may have the right to apply to a court to, amongst other things:

- grant an injunction preventing a regulated Series Receivable from being enforced (or any other action in relation to the Series Receivable) if to do so would breach the NCCP;
- order compensation to be paid for loss or damage suffered (or likely to be suffered) as a result of a breach of a civil penalty provision or a criminal offence in the NCCP;
- if a credit activity has been engaged in without an Australian credit licence and no relevant exemption applies, issue an order it considers appropriate so that no profiting can be made from the activity, to compensate for loss and to prevent loss. This could include an order declaring a contract, or part of a contract, to be void, varying the contract, refusing to enforce, ordering a refund of money or return of property, payment for loss or damage or being ordered to supply specified services;
- vary their Series Receivable on the grounds of hardship or that it is an unjust contract;
- reduce or annul any interest rate payable on the Series Receivable which is unconscionable;
- have certain provisions of the Series Receivable or Related Security which are in breach of the legislation declared unenforceable; or
- obtain restitution or compensation from the Issuer in relation to any breach of the National Credit Code.

As a condition of the Servicer holding an Australian credit licence and the Issuer being able to perform its role, the Servicer and the Issuer must also allow each borrower to have access to an external dispute resolution scheme, which has power to resolve disputes where the amount in dispute is A\$500,000 or less.

There is no ability to appeal from an adverse determination by the external dispute resolution scheme, including, on the basis of bias, manifest error or want of jurisdiction.

Where a systemic contravention affects contract disclosures across multiple Series Receivables, there is a risk of a representative or class action under which a civil penalty could be imposed in respect of all affected Series Receivable contracts. If borrowers suffer any loss, orders for compensation may be made.

Under the National Credit Code, ASIC will be able to make an application to vary the terms of a contract or a class of contracts on the above grounds if this is in the public interest (rather than limiting these rights to affected debtors).

Any order made under any of the above consumer credit laws may affect the timing or amount of principal repayments under the relevant Series Receivables which may in turn affect the timing or amount of interest and principal payments under the Offered Notes.

### ***Unfair Terms***

On 1 July 2010, the Trade Practices Amendment (Australian Consumer Law) Act (No.1) 2010, which amended the Australian Securities and Investments Commission Act 2001, ("**UCT Law**") commenced. The UCT Law introduces a national unfair terms regime whereby a term of a standard-form consumer contract will be unfair, and therefore void, if it causes a significant imbalance in the parties' rights and obligations under the contract and is not reasonably necessary to protect the supplier's legitimate interests. The UCT Law will apply to a term of the Series Receivables to the extent that those contracts were entered into, are renewed, or the term is varied, after commencement of the UCT Law.

Also on 1 July 2010, Victoria amended its unfair terms regime (which were contained in Part 2B of the Fair Trading Act 1999 (Vic)) to follow the wording in the Commonwealth's UCT Law.

If any term of a Series Receivable is found to be void, it may affect the timing or amount of interest, fees or charges, or principal repayments under the relevant Series Receivable (which might in turn affect the timing or amount of interest or principal payments under the Notes).

## **Australian Anti-Money Laundering and Counter-Terrorism Financing Regime**

On 12 December 2006 the Australian Government enacted the Anti-Money Laundering and Counter-Terrorism Financing Act ("**AML/CTF Act**") which replaces Australian Financial Transactions Reports Act 1988. The AML/CTF Act makes a number of significant changes to Australia's anti-money laundering and counter-terrorism financing regulation. Under the AML/CTF Act, if an entity has not met its obligations under the AML/CTF Act, that entity will be prohibited from providing a designated service which includes:

- opening or providing an account, allowing any transaction in relation to an account or receiving instructions to transfer money in and out of the account;
- issuing, dealing, acquiring, disposing of, cancelling or redeeming a security; and
- exchanging one currency for another.

These obligations will include undertaking customer identification procedures before a designated service is provided and receiving information about international and domestic institutional transfers of funds. Until these obligations have been met an entity will be prohibited from providing funds or services to a party or making any payments on behalf of a party.

The obligations placed upon an entity could affect the services of an entity or the funds it provides and ultimately may result in a delay or decrease in the amounts received by a Noteholder of Notes.

## **European Union Capital Requirements Directive**

Article 122a of European Union Directive 2006/48/EC (as implemented by the Member States of the European Economic Area ("**EEA**") (the "**CRD**")) applies, in general, to newly issued securitisations after 31 December 2010. Article 122a restricts an EEA regulated credit institution and consolidated group affiliates thereof (each, an "**Affected Investor**") from investing in a securitisation (as defined by the CRD) unless the originator, sponsor or original lender in respect of that securitisation has explicitly disclosed to the Affected Investor that it will retain, on an ongoing basis, a net economic interest of not less than 5% in that securitisation in the manner contemplated by Article 122a.

Article 122a also requires that an Affected Investor be able to demonstrate that it has undertaken certain due diligence in respect of, amongst other things, the Offered Notes it has acquired and the underlying exposures, and that procedures have been established for monitoring the performance of the underlying exposures on an on-going basis. Failure to comply with one or more of the requirements set out in Article 122a may result in the imposition of a penal capital charge with respect to the investment made in the securitisation by the relevant Affected Investor.

Neither AFGS nor any other party in connection with this securitisation transaction provides any undertaking to retain, either on an ongoing basis or for any period, any net economic interest in this securitisation transaction for the purposes of Article 122a. Accordingly, the Notes may not be a suitable investment for potential investors which are Affected Investors.

Similar requirements to those set out in Article 122a may also be implemented for other EU regulated investors (such as certain types of investment fund managers, insurance and reinsurance undertakings) in the future.

Article 122a and any other changes to the regulation or regulatory treatment of the Notes for some or all investors could also have a negative impact on the price and liquidity of the Notes in the secondary market. There can be no assurance that the regulatory capital treatment of the Notes for any investor will not be affected by any future implementation of, and changes to, the CRD or other regulatory or accounting changes.

#### **US Foreign Account Tax Compliance Act (FATCA)**

The Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (“**FATCA**”) were enacted in March 2010 in an effort to assist the United States Internal Revenue Service (“**IRS**”) in enforcing U.S. taxpayer compliance. More specifically, FATCA imposes a 30% withholding tax on certain payments to and from certain non-U.S. financial institutions (including entities such as the Trust) who do not enter into and comply with an agreement with the IRS to provide certain information on the holders of its debt or equity (other than debt or equity interests that are regularly traded on an established securities market). In addition, FATCA imposes a 30 percent withholding tax on “passthru payments” of U.S. source income from non-U.S. financial institutions (which may include the Trust) to holders of debt or equity (which may include the Offered Notes) that do not provide the necessary information and certifications. A “grandfather rule” provided for by FATCA exempts from withholding tax under FATCA (i) payments of U.S. source income payments (interest and proceeds) on obligations outstanding on 1 January 2014, and (ii) payment of non-U.S. issuers to holders of its obligations, if such obligation is outstanding six months after the adoption of U.S. Treasury final regulations addressing the term “foreign passthru payments” (unless the obligation is significantly modified, and is thus treated as being reissued for U.S. federal income tax purposes, after the applicable date).

The Manager presently anticipates that it will not be necessary for the Trust to enter into an agreement with the IRS with respect to FATCA because it does not generally anticipate that it will receive any material amounts of the type of payments that would be subject to FATCA withholding tax, and thus, it does not anticipate withholding any tax under FATCA

on any payments to Offered Noteholders. Notwithstanding the preceding sentence, these determinations may change as a result of further guidance or interpretations by the IRS or U.S. Treasury Department (official or unofficial), the United States and Australia entering into an intergovernmental agreement with respect to FATCA, an applicable withholding agent disagreeing with the Manager's determination or other reasons. To the extent amounts paid to or from the Trust are subject to FATCA Withholding, there will be no "gross up" (or any additional amount) payable by way of compensation to any Offered Noteholders for the deducted amount. The Issuer (at the direction of the Manager) may also make a subsequent determination that the Trust should or must enter into an agreement with the IRS or comply with certain rules as a result of an applicable intergovernmental agreement. As such, Offered Noteholders will be required to provide any information, tax documentation and waivers that the Issuer (at the direction of the Manager) determines are necessary to comply with FATCA or rules implementing FATCA. The Issuer's ability to satisfy such obligations will depend on each Offered Noteholder providing, or causing to be provided, any information, tax documentation and waivers, including information concerning the direct or indirect owners of such Offered Noteholder, that the Issuer (at the direction of the Manager) determines are necessary to satisfy such obligations.

The above discussion is based on recently published regulations of the U.S. Treasury Department and the IRS may supplement these regulations in a way that would alter the application of FATCA to the Trust and the Offered Notes. Each Offered Noteholder should consult its own tax advisor to obtain a more detailed explanation of FATCA and to learn how it might affect such holder in its particular circumstance.

**Global financial regulatory reforms may have a negative impact on the Notes**

Changes in the global financial regulation or regulatory treatment of asset-backed securities may negatively impact the regulatory position of affected investors and have an adverse impact on the value and liquidity of asset-backed securities such as the Notes. You should consult with your own legal and investment advisors regarding the potential impact on you and the related compliance issues.

No assurance can be given that any regulatory reforms will not have a significant adverse impact on the AFG Trusts programme or on the regulation of the Trust, AFGS or any member of the AFG Group.

**Changes of law may impact the structure of the transaction and the treatment of the Notes**

The structure of the transaction and, inter alia, the issue of the Notes and ratings assigned to the Notes are based on Australian law, tax and administrative practice in effect at the date of this Information Memorandum, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given that Australian law, tax or administrative practice will

not change after the Closing Date or that such change will not adversely impact the structure of the transaction and the treatment of the Notes.

**Turbulence in the financial markets and economy may adversely affect the performance and market value of the Notes**

Market and economic conditions during the past several years have caused significant disruption in the credit markets. Increased market uncertainty and instability in both Australian and international capital and credit markets, combined with declines in business and consumer confidence and increased unemployment, have contributed to volatility in domestic and international markets and may negatively affect the Australian housing market.

Such disruptions in markets and credit conditions have had (in some cases), and may continue to have, the effect of depressing the market values of residential mortgage-backed securities, and reducing the liquidity of residential mortgage-backed securities generally. These factors may adversely affect the performance, marketability and overall market value of the Notes.

**4 DESCRIPTION OF THE SERIES RECEIVABLES**

**4.1 Pool Receivables Data**

The information in the following tables in this Section 4 sets forth in summary format various details relating to the indicative pool of Receivables ("**Indicative Receivables Pool**") produced on the basis of the information available as at the Cut-Off Date. All amounts have been rounded to the nearest Australian dollar. The sum in any column may not equal the total indicated due to rounding.

The statistical information provided in the following tables may not reflect the actual pool of Series Receivables to be acquired by the Issuer from the Disposing Trust on the Closing Date under the Initial Reallocation Notice because Receivables in the Indicative Receivables Pool may be substituted with other eligible Receivables or additional eligible Receivables may be added. For example, a Receivable originally included in the Indicative Receivables Pool may be removed if it is repaid early or if it is determined that the Receivable does not comply with the Eligibility Criteria. Accordingly, the following details are provided for information purposes only.

All amounts in the following tables are expressed in Australian Dollars.

## 5 SERIES ASSETS AND ELIGIBILITY CRITERIA

### 5.1 Acquisition of Series Receivables by Issuer

The Series Assets will primarily consist of the Receivables (Housing Loans and Related Securities) to be acquired by the Issuer from the Disposing Trust on the Closing Date pursuant to the Initial Reallocation Notice issued under Master Trust Deed.

These Receivables were originated by AFGS as agent for (and in the name of) Perpetual Corporate Trust Limited as trustee of the Disposing Trust ("**Disposing Trustee**") under a Master Origination Deed dated 29 October 2010 ("**Master Origination Deed**"). See Section 8 ("The AFG Group") and Section 9 ("Origination and Servicing of the Series Receivables") for more detail regarding the mortgage lending business of the AFG Group and the origination and servicing of the Series Receivables by AFGS.

No further Receivables or Related Securities will be acquired by the Issuer in respect of the Series or the Trust after the Closing Date.

### 5.2 Eligibility Criteria for Series Receivables

A Receivable is an Eligible Receivable if it satisfies the following **Eligibility Criteria** on the Closing Date:

- (a) other than a Receivable which is a Line of Credit Loan, the Receivable requires monthly, fortnightly or weekly payments (after an interest only period not exceeding 5 years) sufficient to pay interest and fully amortise principal over the term of the Receivable;
- (b) the Receivable is denominated and only payable in Australian dollars;
- (c) the Receivable is secured by a:
  - (i) first ranking registered mortgage; or
  - (ii) second ranking registered mortgage (where the Issuer is also the first ranking registered mortgagee and the first ranking registered mortgage will also be a Series Asset),  
  
over residential real property (owner occupied or investment);
- (d) the Receivable and Related Security are legal, valid, binding and enforceable in accordance with their terms against the relevant Debtor;
- (e) each Related Security in respect of the Receivable has been, or will be, stamped with all applicable duty;
- (f) the Land secured under the relevant Related Security is located in either New South Wales, Victoria, Queensland, South Australia, Western Australia, the Australian Capital Territory, Tasmania or the Northern Territory;
- (g) the Debtor in respect of the Receivable is at least 18 years old (where the Debtor is a natural person);
- (h) the funds provided to the Debtor in respect of the Receivable were required to be used for residential purposes (funding an owner-occupied or investment property) or any other purpose as permitted under the Lending Procedures;
- (i) the Receivable must have been fully drawn as at the Cut-Off Date;
- (j) the Outstanding Balance of the Receivable does not exceed A\$900,000;

- (k) the Receivable is not in arrears in respect of any payment by more than 30 days as at the Cut-Off Date;
- (l) the LVR of the Receivable as at the Cut-Off Date does not exceed 85%;
- (m) at the time the Receivable was entered into, the Receivable and Related Security complied in all material respects with all applicable laws (including the Consumer Credit Code and NCCP, as applicable);
- (n) the maximum term of the Receivable is 30 years from its settlement date and it matures at least 1 year prior to the Maturity Date;
- (o) at the time the Receivable was entered into, the Land (including any improvements) secured under the Related Security was insured under an Insurance Policy;
- (p) the Receivable is insured under a valid, binding and enforceable primary or pool Lender's Mortgage Insurance Contract by a Mortgage Insurer for the scheduled term of the Receivable covering all interest and principal;
- (q) the Land secured under the Related Security contains a residential dwelling erected on it and is not vacant land;
- (r) the Receivable is not a construction loan; and
- (s) the Receivable is governed by the laws of a State or Territory of Australia.

### **5.3 AFGS's representations and warranties regarding the Receivables**

AFGS will represent and warrant to the Issuer on the Closing Date (in respect of each Receivable and Related Security referred to in the Initial Reallocation Notice) that:

- (a) each Series Receivable is an Eligible Receivable;
- (b) the transfer of each Series Receivable to the Issuer in accordance with the Initial Reallocation Notice and the Master Trust Deed does not contravene any law. Each Series Receivable is transferable and all consents required in relation to the transfer of the Series Receivables to the Issuer free from Encumbrance have been obtained;
- (c) there is no fraud, dishonesty, material misrepresentation or negligence on the part of the AFGS in connection with the selection and offer to the Issuer of each Series Receivable;
- (d) the transfer of the Series Receivables to the Issuer in accordance with the Initial Reallocation Notice and the Master Trust Deed will not be held by a court to be an undervalue transfer, a fraudulent conveyance, or a voidable preference under any law relating to insolvency; and
- (e) the Disposing Trustee is, and the Issuer will be, on the Closing Date, the sole legal and beneficial owner of each Series Receivable.

### **5.4 Remedy for misrepresentations**

If AFGS, the Servicer, the Manager or the Issuer becomes aware that any representation or warranty by AFGS described in Section 5.3 ("AFGS's representations and warranties regarding the Receivables") in respect of a Series Receivable is incorrect in a material respect when made, it must give notice (providing all relevant details) to the others within 10 Business Days of becoming aware.

If:

- (a) any representation or warranty by AFGS described in Section 5.3 ("AFGS's representations and warranties regarding the Receivables") in respect of a Series Receivable is incorrect in a material respect when made; and

- (b) AFGS does not remedy the breach to the satisfaction of the Issuer within 10 Business Days of giving or receiving notice in respect of that Series Receivable (as the case may be) (or any longer period that the Issuer permits),

AFGS must pay damages to the Issuer for any direct loss suffered by the Issuer as a result. The maximum amount which AFGS is liable to pay is the Outstanding Balance plus any accrued but unpaid interest in respect of the Series Receivable at the time of payment of the damages.

## **5.5 Sale of Series Receivables by the Issuer**

Prior to the occurrence of an Event of Default, the Issuer (at the direction of the Manager) may sell any or all of the Series Receivables after the Closing Date in certain circumstances. A Series Receivable must only be sold by the Issuer for an amount at least equal to the then Outstanding Balance of that Series Receivable plus any accrued interest on the Series Receivable.

The Manager may only give a direction to the Issuer to sell a Series Receivable in the following circumstances:

- (a) the proceeds of the sale together with any Collections held by the Issuer are sufficient to redeem all outstanding Notes in full on a Call Option Date and pay all other Secured Creditors in full and will be used for that purpose;
- (b) the sale is in respect of a Series Receivable for which the relevant Debtor has requested that the variable interest rate on that Series Receivable be converted to a fixed rate of interest and:
  - (i) the Servicer notifies the Manager that it proposes to consent to such conversion; and
  - (ii) the Manager forms the view that the Servicer is prohibited from consenting to that conversion on the basis described in Section 5.7 (“Fixed Rate Housing Loans”) below;
- (c) the sale is in respect of a Series Receivable for which the relevant Debtor has requested that a Further Advance be provided in respect of that Housing Loan and the Servicer has notified the Manager that it proposes to consent to the making of such Further Advance;
- (d) the sale is in respect of a Series Receivable for which the relevant Debtor has requested that a Redraw be provided in respect of that Series Receivable and:
  - (i) the Servicer has notified the Manager that it proposes to consent to the making of such Redraw; and
  - (ii) the Manager has formed the view that it is not entitled to direct the Issuer to fund that Redraw through a Collection Period Distribution.

However, the Manager must not give a direction to the Issuer to sell a Series Receivable if this would result in the weighted average rate on the Series Receivables being less than the Threshold Rate.

The proceeds received by the Issuer from a sale of any Series Receivables as described in this section will form part of Collections available for distribution to the Noteholders and other Secured Creditors in accordance with the Cashflow Allocation Methodology on the Payment Date following the end of the Collection Period in which those proceeds are received.

## **5.6 Setting the Threshold Rate**

The Manager is required calculate the Threshold Rate for the Series Receivables on each Payment Date.

The Manager must, on each Payment Date, direct the Servicer to reset or cause to be reset, and the Servicer must upon such direction reset or cause to reset, as soon as possible (having regard to the National Consumer Credit Protection Laws), the interest rates on any one or more Series Receivables

so that the weighted average interest rate on the Series Receivables is not less than the Threshold Rate.

However the Manager need not give such a direction to the Servicer if an aggregate amount equal to the Threshold Rate Subsidy has been:

- (a) deposited by the Manager into the Collection Account in Cleared Funds by 2.00pm on that Payment Date; and/or
- (b) allocated from Total Available Income on that Payment Date in accordance with clause 11.15(q) ("Application of Total Available Income (prior to an Event of Default)").

The Servicer is required to comply with any directions from the Manager in relation to the Threshold Rate as described above in this Section 5.6 ("Setting the Threshold Rate").

## **5.7 Fixed Rate Housing Loans**

The Servicer must not fix the interest rate payable on a Series Receivable unless:

- (a) the Servicer has notified the Manager prior to fixing the interest rate payable on that Series Receivable;
- (b) at that time the aggregate Outstanding Balance of all Series Receivables which are subject to a fixed rate of interest is less than 10% of the aggregate Outstanding Balance of all Series Receivables at that time; and
- (c) if:
  - (i) the Relevant Period has expired, either:
    - (A) the Manager procures that the Issuer and a counterparty enter into an appropriate and corresponding Derivative Contract in respect of that Series Receivable not later than 1 Business Day after the date on which the fixed interest rate is to take effect, and provided that:
      - (aa) the swap margin in respect of that Derivative Contract for that Series Receivable; and
      - (ab) the Fixed WAM,in each case is not less than 2.40% (or such higher percentage as may be required to ensure no Adverse Rating Effect will result from the fixing of the interest rate on that Series Receivable); or
    - (B) the Manager gives a direction to the Issuer to sell that Series Receivable not later than 1 Business Day after the date on which the fixed interest rate is to takes effect; or
  - (ii) the Relevant Period has not expired, either:
    - (A) the Issuer and a counterparty enter into an appropriate and corresponding Derivative Contract in respect of that Series Receivable not later than 1 Business Day after the date on which the fixed interest rate is to take effect, and provided that:
      - (aa) the swap margin in respect of that Derivative Contract for that Series Receivable; and
      - (ab) the Fixed WAM,

in each case is not less than 2.40% (or such higher percentage as may be required to ensure no Adverse Rating Effect will result from the fixing of the interest rate on that Series Receivable); or

- (B) the Manager gives a direction to the Issuer to sell that Series Receivable not later than 1 Business Day after the date on which the fixed interest rate is to take effect.

## 5.8 Redraws and Further Advances

### **Redraws**

The Servicer must not consent to a request by a Debtor for a Redraw in respect of a Series Receivable unless the Manager has given its prior written consent and has directed the Issuer to fund the Redraw. The Manager may only direct the Issuer to fund a Redraw if:

- (a) a Redraw Trigger is not then subsisting; and
- (b) the Manager has determined that the aggregate of:
  - (i) any funds standing to the credit of the Redraw Reserve Account which are available to be applied to fund that Redraw; and
  - (ii) any funds which the Manager is entitled to direct the Issuer to apply to fund that Redraw in accordance with Section 11.2 (“Distributions during a Collection Period”),

is sufficient to fund that Redraw.

### **Redraw Notes**

If the Manager wishes to consent to Redraw but cannot do so on the basis that it reasonably forms the view that Available Principal available to be applied to fund Redraws in accordance with Section 11.2 (“Distributions during a Collection Period”) will be less than the Manager’s estimate of the amounts required to fund such Redraws (a “**Redraw Shortfall**”), the Manager may (in its discretion) direct the Issuer to issue Redraw Notes with such aggregate Invested Amount as may be determined by the Manager having regard to the Redraw Shortfall.

However, the Manager may only direct the Issuer to issue Redraw Notes if:

- (a) the Manager reasonably forms the view that the aggregate Invested Amount of all Redraw Notes immediately after the issue of such Redraw Notes will not exceed the Redraw Limit;
- (b) a Rating Notification has been provided in respect of the issuance of Redraw Notes; and
- (c) a Redraw Trigger is not then subsisting.

The Issuer must, if directed by the Manager, deposit the issue proceeds of Redraw Notes into the Redraw Reserve Account.

### **Redraw Reserve Account**

The Manager must establish the Redraw Reserve Account on or before the first day on which Redraw Notes are issued. The balance of the Redraw Reserve Account will be applied by the Issuer, at the direction of the Manager, from time to time as follows:

- (a) if there is insufficient Available Principal to fund Redraws that the Manager would otherwise consent to in accordance with Section 11.2 (“Distributions during a Collection Period”), to fund such Redraws;
- (b) if on a Determination Date the Manager determines that the aggregate of the Total Available Principal and the balance of the Redraw Reserve Account is equal to the aggregate Invested

Amount of the Notes at that time, by allocating on that Determination Date the balance of the Redraw Reserve Account to Total Available Principal to be applied towards redeeming the Notes on the immediately following Payment Date; and

- (c) if a Redraw Trigger occurs, by allocating on the next Determination Date the balance of the Redraw Reserve Account to Total Available Principal.

***Further Advances***

The Servicer must not consent to a request by a Debtor for a Further Advance in respect of a Series Receivable. However, if a Debtor requests a Further Advance and the Servicer wishes to agree to that request, the Manager may direct the Issuer to sell the Series Receivable as described in Section 5.5 (“Sale of Series Receivables by the Issuer”).

## **6 INTEREST**

### **6.1 Interest on Notes**

- (a) Each Note bears interest on its Invested Amount at its Interest Rate from (and including) its Issue Date to (but excluding) its Maturity Date, or, if earlier, the date on which the Note is redeemed in accordance with condition 8.6 ("Final Redemption").
- (b) No interest accrues in respect of a Note on any day on which the Stated Amount of that Note is zero.

### **6.2 Interest Rate determination**

The Calculation Agent must determine the Interest Rate for the Notes for an Interest Period in accordance with these conditions and the Issue Supplement.

The Interest Rate must be expressed as a percentage rate per annum.

### **6.3 Interest Rate Determination**

- (a) The Interest Rate for a Class A Note and a Class AB Notes:
  - (i) for each Interest Period ending on or prior to the Payment Date following the first Call Option Date is the sum of:
    - (A) the relevant Margin; and
    - (B) the Bank Bill Rate,for that Note and that Interest Period;
  - (ii) for each Interest Period ending after the Payment Date following the first Call Option Date is the sum of:
    - (A) the relevant Margin;
    - (B) the relevant Step-Up Margin; and
    - (C) the Bank Bill Rate,for that Note and that Interest Period;
- (b) The Interest Rate for a Class B Note, a Class C Note and a Redraw Note for each Interest Period is the sum of:
  - (i) the relevant Margin; and
  - (ii) the Bank Bill Rate,for that Note and that Interest Period.

### **6.4 Calculation of interest payable on Notes**

As soon as practicable after determining the Interest Rate for any Note for an Interest Period, the Calculation Agent must calculate the amount of interest payable on that Note for the Interest Period in accordance with condition 6.1 (“Interest on Notes”).

The amount of interest payable is calculated by multiplying the Interest Rate for the Interest Period, the Invested Amount of the Note and the Day Count Fraction.

#### **6.5 Notification of Interest Rate and other things**

If any Interest Period or calculation period changes, the Calculation Agent may amend its determination or calculation of any rate, amount, date or other thing. If the Calculation Agent amends any determination or calculation, it must notify the Issuer and the Manager. The Calculation Agent must give notice as soon as practicable after amending its determination or calculation.

#### **6.6 Determination and calculation final**

Except where there is an obvious or manifest error, any determination or calculation the Calculation Agent makes in accordance with these conditions is final and binds the Issuer and each Noteholder.

#### **6.7 Rounding**

For any determination or calculation required under these conditions:

- (a) all percentages resulting from the determination or calculation must be rounded to the nearest one hundred thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.); and
- (b) all amounts that are due and payable resulting from the determination or calculation must be rounded (with halves being rounded up) to:

Interest payable under this condition accrues daily from (and including) the due date to (but excluding) the date the Issuer actually pays and is calculated using the Day Count Fraction.

#### **6.9 Interpolation**

In respect of the first Interest Period (but only if the actual number of days in that Interest Period is not 30), the Calculation Agent must determine the Interest Rate for that Interest Period using straight line interpolation by reference to two rates as provided in this condition 6.9.

If the actual number of days in that Interest Period:

- (a) is more than 30 days:

- (i) *the first rate must be determined on the first day of that Interest Period in accordance with the definition of Bank Bill Rate in condition 1.2 ("Definitions"); and*
  - (ii) *the second rate must be determined on the first day of that Interest Period as if each reference to "30 days" in the definition of Bank Bill Rate in condition 1.2 ("Definitions") were a reference to "60 days"; or*
- (b) *is less than 30 days:*
- (i) *the first rate must be the Interbank Overnight Cash Rate on the first day of that Interest Period; and*
  - (ii) *the second rate must be determined on the first day of that Interest Period in accordance with the definition of Bank Bill Rate in condition 1.2 ("Definitions").*

## **7 ALLOCATION OF CHARGE-OFFS**

*The Issue Supplement contains provisions for:*

- (a) *allocating Charge-Offs to the Notes and reducing the Stated Amount of the Notes; and*
- (b) *reinstating reductions in the Stated Amount of the Notes.*

## **8 REDEMPTION**

### **8.1 Redemption of Notes on Maturity Date**

*The Issuer agrees to redeem each Note on the Maturity Date by paying to the Noteholder the Invested Amount for the Note plus all accrued and unpaid interest on the Note up to the Maturity Date and any other amount payable but unpaid with respect to the Note. ## 8 THE AFG GROUP

AFGS is a wholly owned subsidiary of Australian Finance Group Limited (**AFGL**). AFGL is an Australian incorporated public unlisted company with its head office located in Perth, and 'sales offices' located in Sydney, Melbourne, Brisbane and Adelaide. Its Perth Sales office is included as part of the head office. There are 75 shareholders of AFGL with the majority of shares (approximately 73%) controlled by the four founding shareholders. Other significant shareholders currently include Macquarie Securitisation Pty Limited (9.99%), TAL, (formerly Tower Life) (4.9%), and Allianz Australia Limited (4.9%).

AFGL commenced business in 1994 and its traditional core business has been that of mortgage broking aggregator. AFGL now operates through a network of 1,800 contracted brokers (**Member Brokers**). AFGL's residential loan book, or residential loans under management, totals in excess of \$75 billion, with a further \$3.5 billion loan book relating to commercial mortgages, again originated through contracted Brokers.

This \$75 billion loan book linked with major banks and leading lending institutions has provided strong and reliable cash flow which in turn has underwritten the expansion of the AFG Group from being simply a Mortgage Broking Aggregator. In 2001, the AFG Group made the strategic decision to move further up the value chain and also leverage some of the distribution capability it had developed in the years since commencing business. A mortgage management business, AFG Home Loans Pty Ltd (**AFGHL**) principally funded by Bendigo Adelaide Bank Limited and ING was commenced and has grown from this time to a loan book of approximately \$2.0 billion. This business has enabled the AFG Group to gain experience in credit and post settlement care and arrears management.

In 2007, with the capability within the AFGHL business proven, AFGS commenced operations to facilitate the further evolution of this arm of the wider AFG business. Whilst the onset of the Global Financial Crisis curtailed new originations, a new warehouse facility was negotiated with NAB in 2010 and since this time AFGS has grown originations whilst ensuring that the residential mortgage assets being accumulated were capable of being accepted in the wider investor market. The AFGS loan portfolio currently stands at approximately \$600 million.

AFGS originates residential home loans through the tied distribution of its parent - which manages the 1,800 Australia wide, brokers directly contracted to AFGL. It does not accept home loan applications from sources outside of the AFG network. All loans are initially funded through a warehouse facility arranged by NAB. For more information, see Section 9 ("Origination and Servicing of the Series Receivables").

AFGS holds an Australian Financial Services Licence (No. 418017) issued by the Australian Securities ASIC. As a licensee, AFGS is required to have satisfied ASIC that it meets acceptable standards with respect to financial resources, risk management, compliance and corporate governance.

## 9 ORIGINATION AND SERVICING OF THE SERIES RECEIVABLES

### 9.1 Roles and Responsibilities of companies within the AFG Group

The Australian Finance Group Limited group of companies is comprised of a small number of operating wholly owned subsidiaries. These companies each perform distinct roles within the AFG Securities business model. These roles are briefly described below:

- Australian Finance Group Limited (**AFGL**) is the holding company and is responsible for the management of the AFG Group as a whole, and also responsible for the recruitment and management of the 1,800 mortgage brokers directly contracted with AFGL. It also provides the executive management support, overriding compliance and risk management structures as well as marketing and information technology's direction for the AFG Group. Importantly, it also provides the financial support for the balance of the operating companies within the consolidated group of companies;
- AFG Home Loans Pty Ltd (**AFGHL**) is the company that manages the distribution of the AFGL branded product. AFGHL commenced business as a mortgage manager and currently manages a combined loan book of approximately \$2.0 billion. As a mortgage manager, AFGHL is responsible for the credit review of all applications, the ultimate settlement of the mortgage transaction, the ongoing customer management, collections and arrears management and ultimate discharge of that customer. Included in the \$2.0 billion book is a book of in excess of \$600m relating to loans funded by AFGS; and
- AFG Securities Pty Ltd (**AFGS**) provides funding for the AFGHL branded mortgage products. AFGS is the Servicer and Manager for the Trust.

AFGL and AFGHL are not parties to any of the Transaction Documents and are not responsible for the management of the Trust or the servicing of the Series Receivables. None of the obligations of the Manager, the Servicer or the Issuer in connection with the Series are guaranteed in any way by AFGL or AFGHL.

For further information about AFGS and the other AFG Group companies, see Section 8 ("The AFG Group").

### 9.2 Origination of Housing Loans

The Series Receivables will consist of Housing Loans and Related Securities originated by AFGS. These housing loans are sourced from brokers directly contracted with AFGL. In other words, AFGL does not accept home loan applications unless that loan application has been completed by one of their 1,800 (approximately) Australia-wide contracted brokers.

To become an AFGL contracted mortgage broker requires a number of checks to be performed by the AFGL compliance department before the broker is offered a contract with AFGL. Such checks include a police clearance and a credit check.

An AFGL Mortgage Broker will use FLEX as a means of assisting them service the customer, and to select an appropriate home loan for the customer. FLEX is an AFGL developed technology solution which utilises an enterprise technology as its framework. FLEX is supported by a team of AFGL employees whose role is to develop FLEX in accordance with broker, business and legislative needs.

Once a broker has met with a potential home loan customer and the customer agrees on applying for an AFGHL branded home loan, the application form is usually submitted electronically to AFGHL and the credit process commences.

### 9.3 Credit Assessment

Credit assessment is performed by AFGHL. The standard credit assessment procedures conducted by AFGHL include both the verification of the data within the loan application to

source documentation, together with performance of a credit check. Some relevant aspects of these procedures are as follows;

*Valuation* – AFGHL obtains a full valuation on all securities. Since 2011 all valuations are ordered through Valex via a predetermined valuer panel. Valex provides a total valuer panel management solution for the residential mortgage lending industry.

*Employment Check* - AFGHL independently sources the applicant(s) employer's contact details and verbally verifies the remuneration and employment details included in the application form

*Lenders Mortgage Insurance (LMI)* - 100% of all Housing Loans (irrespective of LVR) are covered by an individual LMI policy. The respective LMI provider approves each loan prior to AFGHL issuing a formal approval to the customer. For more information about the relevant LMI Providers, see Section 9.5 ("Mortgage Insurers").

*Welcome Call* - Recognising that the customer has come to AFGHL via the AFGL Broker network, just prior to settlement a welcome call is made by AFGHL directly to the customer. This call apart from facilitating the 'hand over' from the broker to AFGHL, also provides AFGHL and AFGS with the opportunity to confirm that the customer has in fact applied for the loan, the security being used and that the broker has met the relevant statutory checks relating to customer identification.

#### **9.4 Housing Loan Characteristics**

All of the Housing Loans which will form part of the Series Receivables are loans secured by first registered mortgages over residential real estate. Scheduled payments are made predominantly by direct debit or other electronic payment methods to the customer's loan account.

All fees generated from the Series Housing Loans to will be Series Assets. Such fees may include (depending on the loan selected by the customer) a fee charged as at settlement of the loan, an annual fee and default interest/fees. All of the Housing Loans are prepayable in full or in part at any time.

##### *Loan Types*

Whilst the Housing Loans may be categorised according to different promotional terminology, in summary they can be classified as being either:

- a principal and interest loan;
- an interest only loan which converts to that of a principal and interest loan within a prescribed time period (which the maximum is five years); or
- a line of credit loan (which amortises at the expiry of 120 months).

All Housing Loans are currently subject to a variable rate of interest. On each Payment Date, the Manager is required to calculate the Threshold Rate for the Housing Loans. Except in the circumstances described in Section 5.6 ("Setting the Threshold Rate"), the Manager must direct the Servicer to reset or cause to be reset as soon as possible (having regard to the National Consumer Credit Protection Laws), the interest rates on any one or more Series Receivables so that the weighted average interest rate on the Series Receivables is not less than the Threshold Rate.

However, AFGS intends to offer its customers the ability to fix the interest rate on all or a proportion of their Housing Loan. This may occur as early as the second calendar quarter of 2013. This ability will also be available to customers whose Housing Loan is included in the Series Receivables. However, if such a customer wishes to fix some or all of the interest on their existing Housing Loan, the Servicer must not agree to this request unless it has complied with the requirements set out in Section 5.7 ("Fixed Rate Housing Loans").

## 9.5 Servicing of Housing Loans

AFGS administers all Loans from its Head Office in Perth. The loans are managed on the Data Action Core Banking System, which in turn is hosted on a 24/7 bureau service by Data Action Pty Ltd (ACN 008 102 690) (“**Data Action**”) out of South Australia. The bureau service provided by Data Action is subject to annual disaster recovery testing, utilising its two live sites in South Australia.

The Core Banking System is licensed directly from Data Action, which is currently also utilised by over 25 financial institutions operating in Australia.

Access into the Australian banking system for customer transactions is provided under a contract with CUSCAL Limited (ACN 087 822 455) (“**CUSCAL**”). CUSCAL is a leading provider of wholesale banking and transactional services to retail financial institutions in Australia. It is an unlisted Australian public company owned by over 80 financial institutions; mostly mutual organisations. CUSCAL is an approved deposit-taking institution (ADI) regulated by the Australian Prudential Regulation Authority.

AFGS engages a reputable Australian legal firm to advise on compliance with all legislative requirements of the program which includes impending amendments to existing legislation or new legislation (such as the Consumer Credit Code, the National Consumer Credit Protection Laws and the Privacy Act 1988 (Cwlth)).

AFGS also maintains an authorised solicitors panel to prepare the loan documentation and facilitate all loan settlements. As part of the AFG Group’s risk management framework, the Group maintains a number of key insurance policies which are independent of the Lenders Mortgage Insurance Contracts referred to elsewhere in this Information Memorandum:

- AFGS has a Mortgage Impairment Insurance policy in place for protection in the event that a loss is sustained when a mortgaged property is sold, following default on payments after such property was damaged or destroyed and the Debtor has insufficient or no insurance cover.
- AFGS has a comprehensive Crime Insurance Policy in place to cover the general risk of fraud or loss incurred by any of the companies within the AFG Group from criminal actions. The cover is in place for the exposure of the AFG Group, either to internal and, in some cases, external fraud and general crime. The cover provides protection for such risks as fraud whether electronic, identity, documentary or general illegal activity which causes loss of security rights.
- AFGS currently has Professional Indemnity Insurance cover in place for, at minimum, an amount of A\$2 million any one claim and in the aggregate during the policy period.

## 9.6 Standby Servicer

Perpetual Corporate Trust Limited ABN 99 000 341 533 has been appointed as Standby Servicer in respect of the Series under the Standby Servicing Deed. The Standby Servicer and AFGS have implemented a ‘warm’ standby servicing arrangement to better facilitate the transfer of servicing responsibilities in respect of the Series from the Servicer to the Standby Servicer. The Standby Servicer, in consultation with AFGS, has prepared a Standby Servicing Plan which includes information and guidelines for the Standby Servicer to continue to service the Series Receivables in the event that AFGS is unable to service the Series Receivables.

The Standby Servicing Plan covers full servicer responsibilities including collection and reconciliation of transactions in the banking system, arrears management, recovery actions and LMI reporting.

For information regarding the circumstances in which the Standby Servicer may be required to act as Servicer in respect of the Series, see Section 12.6 (“The Servicing Deed”) and Section 12.7 (“The Standby Servicing Deed”).

All amounts received by the Issuer will be allocated by the Manager and paid in accordance with the cashflow allocation methodology described in Sections 11.1 to 11.18 below (“**Cashflow Allocation Methodology**”). The Cashflow Allocation Methodology applies only in respect of payments to be made before the occurrence of an Event of Default and enforcement of the General Security Deed in accordance with its terms. Section 11.19 applies in respect of payments made following the occurrence of an Event of Default and enforcement of the General Security Deed.

### 11.1 Collections

The Servicer is required to collect all Collections received by it in respect of the Series Receivables and remit them to the Collection Account within 2 Business Days of receipt by the Servicer.

The “**Collections**”, in respect of a Collection Period, are all amounts received by, or on behalf of, the Issuer in respect of the Series Receivables during that Collection Period including, without limitation:

- (a) all principal, interest and fees;
- (b) the proceeds of sale or Reallocation of any Series Receivables;
- (c) any proceeds recovered from any enforcement action;
- (d) any amount received as damages in respect of a breach of any representation or warranty;  
and
- (e) any fixed rate break costs paid by the Debtors,

after deduction of all Taxes and bank and government charges in respect of such amounts.

### 11.2 Distributions during a Collection Period

Prior to the occurrence of an Event of Default and enforcement of the General Security Deed, the Manager may, on any day during a Collection Period, direct the Issuer to apply all Available Principal received up to that point in time (calculated as if that day was a Determination Date) during that Collection Period (to the extent not previously applied as described in this Section 11.2) towards funding Redraws (a “**Collection Period Distribution**”).

However, the Manager must not, at any time during a Collection Period, direct the Issuer to make a Collection Period Distribution unless it is satisfied that the Available Income (plus any Principal Draw) on the immediately following Payment Date will be sufficient to meet the Required Payments on that Payment Date.

### 11.3 Determination of Adjusted Collections

On each Determination Date, the Manager will determine the Adjusted Collections for the immediately preceding Collection Period.

The “**Adjusted Collections**” for a Collection Period will be equal to:

- (a) the aggregate Collections received during that Collection Period; minus
- (b) the aggregate of all Collection Period Distributions made during that Collection Period.

### 11.4 Determination of Available Principal

On each Determination Date, the Manager will determine the Available Principal for the immediately preceding Collection Period. The “**Available Principal**” for a Collection Period will be equal to:

- (c) the aggregate amount of Postings for the immediately preceding Collection Period; minus
- (d) the Shortfall Adjustment calculated on the previous Determination Date.

If this calculation is positive, then the amount so calculated will be the Available Principal for that day. If this calculation is negative, then the Available Principal is equal to zero.

If on any Determination Date this calculation is a negative amount, then the absolute value of that amount is the “**Shortfall Adjustment**” for that Determination Date. If that calculation is zero or positive, the Shortfall Adjustment is equal to zero.

The Shortfall Adjustment in respect of the first occurring Determination Date will be zero.

### **11.5 Determination of Total Available Principal**

On each Determination Date, the Manager will determine the Total Available Principal to be distributed on the immediately following Payment Date (as described in Section 11.6 (“Application of Total Available Principal (prior to an Event of Default and enforcement of the General Security Deed)”) below).

In connection with the exercise of the Call Option, the Manager may direct the Issuer to sell its right, title and interest in Series Receivables for an amount sufficient (together with any Collections held by the Issuer on the proposed redemption date) to

redeem all outstanding Notes in full (at their Invested Amount) and pay all other Secured Creditors in full.

If the Call Option is exercised and the Series Receivables are sold, the Issuer must apply the proceeds received by it in accordance with the Cashflow Allocation Methodology on the relevant Call Option Date on which the Notes are to be redeemed.

## **11.22 Tax Account**

In respect of any period during which the Trust is a member of a Consolidated Group, the Manager must:

- (a) (if the Manager determines that there will be a Tax Amount payable in the future by the Issuer in respect of the Trust) direct the Issuer in writing to open the Tax Account; and
- (b) on each Payment Date direct the Issuer in writing to set aside into the Tax Account the required Tax Amount and Tax Shortfall, as determined by the Manager, from Total Available Income in accordance with Section 11.15 (“Application of Total Available Income (prior to an Event of Default and enforcement of the General Security Deed)”). The Manager must direct the Issuer to apply the funds in the Tax Account in paying any Tax when due and payable by the Issuer in respect of the Trust.

The Issuer is entitled to be indemnified out of the Series Assets for any liability it incurs if the Commissioner of Taxation determines that the Issuer has a liability to pay any part of the Group Tax Liabilities of the Consolidated Group that are not able to be satisfied from the Tax Account.

## 12 DESCRIPTION OF THE TRANSACTION DOCUMENTS

The following summary describes the material terms of the Transaction Documents. The summary does not purport to be complete and is subject to the provisions of the Transaction Documents. All of the Transaction Documents are governed by the laws of New South Wales, Australia.

### 12.1 Overview of the AFG Trusts programme

The AFG trusts securitisation programme was originally established in March 2007 and was then updated in October 2010 to include the current Master Trust Deed, Servicing Deed, Management Deed, Master Definitions Schedule and other related documents. The main purpose of the AFG trusts securitisation programme is to raise finance for the AFG mortgage lending business by issuing securitised debt instruments. Under the Master Trust Deed, an unlimited number of separate and distinct trusts, and separate and distinct series of assets and liabilities relating to those trusts, may be created.

The Master Trust Deed also provides for the creation of a 'security trust' in connection with the establishment of each note issuing trust and the appointment of the Security Trustee to hold on trust the benefit of the relevant security granted by the issuer trustee for the noteholders and other secured creditors in respect of the related note issuing trust.

The terms of each series created under the Master Trust Deed are primarily governed by the Master Trust Deed and by the issue supplement which relates to that particular series. Each series will also have the benefit of a separate security granted by the Issuer (as trustee of the relevant note issuing trust) in favour of the Security Trustee over the assets of that series.

Under the Issue Supplement for the Trust, no series may be created in relation to the Trust in addition to the Series. The following paragraphs of this Section 12 provide further detail about the structure of the AFG Trusts programme and the terms of the Transaction Documents as they relate to the Series.

### 12.2 General Features of the Trust

#### ***Constitution of the Trust***

The Trust is a common law trust which, in accordance with the Master Trust Deed, was established under the laws of New South Wales on 20 March 2013, by the execution of the Notice of Creation of Trust.

The Issuer has been appointed as trustee of the Trust. The Issuer will issue Notes in its capacity as trustee of the Trust.

The Trust will terminate:

- (a) on the earlier of:
  - (i) the date which is 80 years after the date on which it was established; and
  - (ii) termination of the Trust under the terms of the Trust or the Issue Supplement, statute or general law; or
- (b) at any time after the Borrowings in respect of the Trust and any other creditors (including, without limitation, the Secured Creditors) of the Trust have been repaid in full and the Issuer has confirmed that it does not intend to incur any further Borrowings in respect of the Trust.

#### ***Capital***

The beneficial interest in the Trust is represented by:

- (a) ten Residual Capital Units; and
- (b) one Residual Income Unit.

The initial holders of the Residual Capital Units are AFG Securities Pty Ltd and Solution Capital No.2 Pty Ltd.

The initial holder of the Residual Income Unit is AFG Securities Pty Ltd.

### ***Purpose of the Trust***

The Trust has been established for the sole purpose of issuing the Notes, acquiring Receivables and Related Securities and entering into the transactions contemplated by the Transaction Documents

As at the Issue Date, and prior to the issue of the Notes, the Trust has not commenced operations and the Trust will, following the Issue Date, undertake no activity other than that contemplated by the Transaction Documents.

### ***Entitlement of holders of the Residual Capital Units and holders of the Residual Income Units***

The beneficial interest of the Trust is vested in the holders of the Residual Capital Units and the Residual Income Units in accordance with the Master Trust Deed and the Transaction Documents.

### ***Entitlement of Unitholders to payments***

Until termination of the Trust, the Residual Capital Unitholders and the Residual Income Unitholder have no right to receive distributions except to the extent that funds are available for distribution to them in accordance with the cashflow allocation methodology set out in Section 11 ("Cashflow Allocation Methodology") and the Master Trust Deed.

On termination of the Trust:

- (a) the Residual Income Unitholder has the right to receive repayment of any part of the issue price paid for each Residual Income Unit held by it (to the extent not previously repaid) and any other surplus assets of the Trust on its termination; and
- (b) the Residual Capital Unitholder has the right to receive the remaining surplus assets of the Trust (if any) after the distributions to the Residual Income Unitholder described above,

in accordance with the Transaction Documents.

### ***Transfer of Units***

Each Residual Capital Unit is not transferable.

Each Residual Income Unit may be transferred in accordance with the Master Trust Deed.

### ***Ranking of Units***

The rights of any Unitholder of the Trust at all times rank after, and are subject to, the interests of the Secured Creditors of the Series.

### ***Restricted rights***

The Residual Capital Unitholder and the Residual Income Unitholder are not entitled to:

- (a) interfere with the Series or any trust under the Transaction Documents or with any rights or powers of the Issuer, the Security Trustee or the Servicer or Manager under any Transaction Document;
- (b) exercise a right, lodge a caveat or other notice or otherwise claim any interest in a Series Asset or the asset of any trust established under the Transaction Documents;
- (c) require the transfer to it of any Series Asset or the asset of any trust established under the Transaction Documents;

- (d) seek to terminate or wind up the Series or any trust established under the Transaction Documents; or
- (e) seek to remove the Issuer, the Manager, the Servicer or the Security Trustee.

### ***Creation of the Series***

Under the Master Trust Deed, the assets of a trust can be allocated to separate “series”, each established by the execution of an “issue supplement”, a “notice of creation of security trust” and a “charge” for that series by the Issuer.

A series will comprise the assets allocated to it by the Issuer and liabilities incurred by the Issuer in respect of that series (including liabilities under the relevant notes) will be secured against those assets under the charge for the relevant series.

The Issuer must keep the assets of each trust and each series separate and must allocate to each trust and series those liabilities which, in the opinion of the Issuer, are properly referable to that trust or series.

The Series has been established under the Issue Supplement in accordance with this process.

The Issuer must:

- (a) account for the Series Assets of the Series separately from the assets of any Other Series;
- (b) account for the liabilities in respect of the Series separately from the other liabilities in respect of any Other Series; and
- (c) ensure that all of the Series Assets and liabilities in respect of the Series are allocated in its records separately from the assets and liabilities in respect of any Other Series

The Series will be the only series established in relation to the Trust. The sole business of the Issuer in relation to the Series will be as follows:

- (a) acquiring the Series Assets;
- (b) administering, collecting and otherwise dealing with Series Assets;
- (c) issuing Notes of the Series;
- (d) entering into, and exercising rights or complying with obligations under, the Transaction Documents of the Series to which it is a party and the transactions in connection with them; and
- (e) any other activities in connection with the Series,

in accordance with the Transaction Documents (the “**Series Business**”).

## **12.3 The role of the Issuer under the Master Trust Deed**

### ***Issuer to act as trustee***

Under the Master Trust Deed, the Issuer is appointed, and has agreed to act, as trustee of the Trust with (and subject to) the powers and conditions contained in the Master Trust Deed and the other relevant Transaction Documents.

### ***Obligations of the Issuer***

Pursuant to the Transaction Documents, the Issuer undertakes (among other things) to:

- (a) act as trustee of the Trust on the terms and conditions contained in the Master Trust Deed and the Transaction Documents for the Trust and the Series;
- (b) carry on the Series Business for the Series in accordance with the Manager's directions (in accordance with the Transaction Documents);
- (c) acquire or dispose of Assets at the direction of the Manager (in accordance with the Transaction Documents);
- (d) Borrow at the direction of the Manager (in accordance with the Transaction Documents);
- (e) open, maintain and operate the Collection Account in accordance with the Transaction Documents;
- (f) pay all Taxes (other than Taxes disputed by the Issuer in good faith) when due;
- (g) not amend, vary or alter, or consent to any amendment, variation or alteration of the Master Trust Deed or any Transaction Document in respect of the Series other than in accordance with the provisions of the Master Trust Deed;
- (h) not create or consent to any Encumbrance over the Series Assets except for a Permitted Encumbrance;
- (i) not, except in the manner contemplated by the Transaction Documents, transfer or deal with the Series Assets or merge the Series Assets with any other assets of the Issuer;
- (j) act honestly and in good faith in the performance of its duties and in the exercise of its discretions under the Master Trust Deed and under the Transaction Documents;
- (k) exercise the degree of skill, care and diligence that the trustee of a securitisation trust would reasonably be expected to exercise;
- (l) exercise such prudence as a prudent person of business would exercise in performing its express functions and in exercising its discretions under the Master Trust Deed, the other Transaction Documents; and
- (m) pay the Secured Money (and each part of the Secured Money) in respect of the Series to the Secured Creditors entitled to receive it in accordance with the Transaction Documents.

### ***Powers of the Issuer***

The Issuer has all the powers of a natural person or corporation in connection with the exercise of its rights and compliance with its obligations in connection with the Trust and the Series.

### ***Delegation by the Issuer***

The Issuer may appoint a party as its delegate, attorney or agent to perform its functions under the Transaction Documents (including a power to sub-delegate), provided that the Issuer must not delegate to such third parties (other than a Related Entity of the Issuer) any material part of its powers, duties or obligations as Issuer.

Provided that:

- (a) the Issuer appoints the agent or delegate in good faith and using due care; and
- (b) the agent or delegate is not an officer, employee or Related Entity of the Issuer,

the Issuer will not be liable for the acts or omissions of any agent or delegate.

### ***Issuer's voluntary retirement as trustee***

The Issuer may retire as trustee of the Trust by giving 3 months written notice to the Manager. The retirement takes effect on the later to occur of:

- (a) the retirement date specified in the notice; and
- (b) the execution by a replacement trustee of a deed under which it agrees to be bound by the Transaction Documents in respect of the Trust as if it were originally a party to those Transaction Documents.

If the Issuer notifies the Manager of its retirement, the Manager may appoint another corporation as a replacement trustee. If the Manager fails to appoint another corporation within one month of the notice of retirement and the Security Trustee selects a corporation to be trustee of the Trust, the Issuer must appoint that corporation as trustee of the Issuer. The appointment of a corporation as replacement trustee is subject to Rating Notification being provided in respect of that appointment.

### ***Issuer's mandatory retirement as trustee***

The Issuer must immediately retire as trustee of the Trust if:

- (a) the Issuer becomes Insolvent in its personal capacity; or
- (b) the Issuer is in breach of a material obligation under the Transaction Documents for the Trust and, where such breach is remediable, the Issuer has not remedied such breach within 30 days of becoming aware of it; or
- (c) required by law.

If the Issuer is required to retire as trustee, the Manager may appoint another corporation as a replacement trustee. If the Manager fails to appoint another corporation immediately and the Security Trustee selects a corporation to be trustee of the Trust, the Issuer must appoint that corporation as trustee of the Issuer. The appointment of a corporation as replacement trustee is subject to Rating Notification being provided in respect of that appointment.

### ***Issuer's fee***

The Issuer is entitled to a fee for performing its functions and duties in respect of the Trust and the Series in an amount and calculated in such manner as may be agreed between the Issuer and the Manager from time to time. Any increase to that fee must not be agreed unless a Rating Notification has been provided in respect of the increase.

### ***Indemnity***

Without prejudice to the right of indemnity given by law to trustees generally, the Issuer will be indemnified out of the Series Assets against all costs, expenses, loss and liabilities properly incurred by the Issuer in performing any of its duties or exercising any of its powers under the Transaction Documents to the extent that the cost, expense, loss or liability has been incurred by the Issuer in connection with the performance of its duties or the exercise of its powers in respect of the Series. However, this indemnity does not extend to liabilities arising from the Issuer's fraud, negligence or wilful default.

The costs above include all legal costs and disbursements charged at the usual commercial rates of the relevant legal services provider incurred by the Issuer in connection with court proceedings brought against it alleging negligence, fraud or wilful default on its part in respect of the Series. However, if there is a determination by the relevant court of negligence, fraud or wilful default by the Issuer, the Issuer must repay any amount paid to it in respect of those legal costs.

The Issuer is not entitled to have recourse to the Assets of another trust or series to satisfy any cost, expense, loss or liability in respect of the Series.

### ***Limitation of Issuer's liability***

The Issuer enters into the Transaction Documents only in its capacity as trustee of the Trust and in no other capacity.

Except to the extent stated in the following paragraphs:

- (a) a liability or obligation arising under or in connection with any Transaction Document in respect of Series is limited to and can be enforced against the Issuer only to the extent to which it can be satisfied out of the Series Assets out of which the Issuer is actually indemnified for the liability; and
- (b) this limitation of the Issuer's liability applies despite any other provision of any Transaction Document and extends to all liabilities and obligations of, undertaken or incurred by, or devolving on, the Issuer arising from, or in any way connected with, any conduct, omission, representation, warranty, agreement, transaction or other matter or thing under or related to any Transaction Document.

The parties (other than the Issuer) may not sue the Issuer in any capacity other than as trustee of the Trust, including seeking the appointment of a receiver, a liquidator, an administrator or any similar person to the Issuer or prove in any liquidation, administration or arrangements of or affecting the Issuer.

The Issuer's limitation of liability set out above will not apply to any liability or obligation of the Issuer to the extent that it is not satisfied because under a Transaction Document or by operation of law there is a reduction in the extent of the Issuer's indemnification out of the Series Assets as a result of the Issuer's fraud, negligence or wilful default.

However:

- (a) in no circumstances will the Issuer be personally liable for any indirect, incidental, consequential or special damages (including, without limitation, lost profits) of any form incurred by any person or entity, whether or not foreseeable and regardless of the type of action in which such a claim may be brought (except to the extent that there is a determination by a relevant court of fraud by the Issuer); and
- (b) in no event will the Issuer be personally liable for any failure or delay in the performance of its obligations under any Transaction Document because of circumstances beyond its control including, but not limited to, acts of God, flood, war (whether declared or undeclared), terrorism, fire, riot, embargo, labour dispute, any statute, ordinance, code or other law which restricts or prohibits the Issuer from performing its obligations under any Transaction Document, the inability to obtain or the failure of equipment or the interruption of communications or computer facilities to the extent, in each case, that these occurrences are beyond the control of the Issuer and any other causes beyond the Issuer's control.

The Relevant Parties are responsible under the Master Trust Deed and the other Transaction Documents for performing a variety of obligations relating to the Trust and the Series. No act or omission of the Issuer (including any related failure to satisfy its obligations or breach of representation or warranty under the Master Trust Deed or any other Transaction Document) will be considered fraud, negligence or wilful default of the Issuer to the extent to which the act or omission was caused or contributed to by any failure by any Relevant Party or any other person to fulfil its obligations relating to the Trust or by any other act or omission of any Relevant Party or any other person (including, without limitation, any failure by the Manager to give a direction to the Issuer) or any of its agents or contractors regardless of whether or not the act or omission is purported to be done on behalf of the Issuer.

No attorney, agent, receiver or receiver and manager or other person appointed in accordance with Master Trust Deed or any other Transaction Document has authority to act on behalf of the Issuer in a way which exposes the Issuer to any personal liability and no act or omission of such a person will be considered fraud, negligence or wilful default of the Issuer.

The Issuer is not obliged to do or refrain from doing anything under the Master Trust Deed or any other Transaction Document (including incur any liability) unless the Issuer's liability is limited in the same manner as set out in this section.

A reference to the “**fraud, negligence or wilful default**” of the Issuer means the fraud, negligence or wilful default of the Issuer and of its officers, employees, agents and any other person where the Issuer is liable for the acts or omissions of such other person under the terms of any Transaction Document.

A reference to the “**wilful default**” of the Issuer means any intentional failure to comply with or intentional breach by the Issuer of any of its obligations under any Transaction Document, other than a failure or breach which:

- (a) arose as a result of a breach by a person other than the Issuer and the performance of the action (or the non-performance of which gave rise to such breach) is a precondition to the Issuer performing the relevant obligation;
- (b) is in accordance with a lawful court order or direction required by law; and
- (c) is in accordance with an instruction or directions given by the Manager or is in accordance with an instruction or direction given to it by any person in circumstances where that person is entitled to do so by any Transaction Document or at law.

#### ***Knowledge of the Issuer***

The Issuer will not be taken to have notice or knowledge or to be aware of any fact or information unless:

- (a) it receives notice of that fact or information from the Manager; or
- (b) an officer of the Issuer having day to day responsibility for the administration or management of a Trust or the Issuer's obligations under the Transaction Documents, has actual notice or knowledge of or is aware of that fact or information.

#### ***No supervision***

Except as expressly set out in the Transaction Documents of the Trust, the Issuer has no duty, either initially or on a continuing basis, to supervise or keep itself informed about the circumstances of the Servicer, the Manager or any other party to a Transaction Document or the performance of their respective obligations under any Transaction Document.

#### **12.4 The role of the Security Trustee under the Master Trust Deed and the General Security Deed**

The Security Trust was created pursuant to the Master Trust Deed on 22 March 2013 by the execution of the Notice of Creation of Security Trust.

P.T. Limited is appointed as Security Trustee on the terms set out in the Master Trust Deed. For more information regarding P.T. Limited see Section 10.2 (“Security Trustee”).

The Master Trust Deed, as it relates to the Security Trust and the appointment of the Security Trustee, contains customary provisions for a document of this type that regulate the performance by the Security Trustee of its duties and obligations and the protections afforded to the Security Trustee in doing so.

#### ***General Security Deed***

The Noteholders in respect of the Trust have the benefit of a security interest over the all the Series Assets of the Series under the General Security Deed. The Security Trustee holds this security interest on behalf of the Secured Creditors (including the Noteholders) pursuant to the Master Trust

Deed and may enforce the General Security Deed upon the occurrence of an Event of Default (as defined below).

To the extent that the Secured Property includes “personal property” (as defined in the PPSA), that property is either a ‘circulating asset’ or a ‘restricted asset’ for the purposes of the General Security Deed. Circulating assets can be dealt with by the Issuer where the dealing is done in the ordinary course of the Issuer’s business unless, following an Event of Default, the Security Trustee notifies the Issuer that it may not do so. Restricted assets (which include, among other things, the Collection Account) may only be dealt with to the extent expressly permitted under the Transaction Documents or with the consent of the Security Trustee (at the direction, by Extraordinary Resolution, of the Voting Secured Creditors).

To the extent that the Secured Property includes property which is not “personal property” (as defined in the PPSA), the security interest will operate as a fixed charge over restricted assets and a floating charge over circulating assets but may be converted from a floating charge to a fixed charge with respect to any or all such assets in certain circumstances (including following an Event of Default).

Each of the Issuer, the Security Trustee, AFGS, the Servicer and the Manager have agreed to do anything (such as obtaining consents, signing and producing documents, getting documents completed and signed and supplying information) which the Manager asks and reasonably considers necessary for the purposes of ensuring that this security interest is enforceable, perfected (including, where possible, by control in addition to registration) and otherwise effective, enabling the Security Trustee to apply for any registration, give any notification, or take any other step, in connection with this security interest so that this security interest has the highest ranking priority reasonably possible, or enabling the Security Trustee to exercise rights in connection with this security interest.

### ***Events of Default***

It is an “**Event of Default**” in respect of the Series if any of the following occur:

- (a) the Issuer does not pay any amount payable by it in respect of the Senior Obligations on time and in the manner required under the Transaction Documents unless, in the case of a failure to pay on time, the Issuer pays the amount within 3 Business Days of the due date;
- (b) the Issuer:
  - (i) does not comply with any other obligation relating to the Series under any Transaction Document where such non-compliance will have a Material Adverse Payment Effect; and
  - (ii) if, in the opinion of the Security Trustee, that non-compliance can be remedied, does not remedy the non-compliance within 20 Business Days after written notice (or such longer period as may be specified in the notice) from the Security Trustee requiring the failure to be remedied;
- (c) the Issuer becomes Insolvent, and the Issuer is not replaced in accordance with the Master Trust Deed within 60 days (or such longer period as the Security Trustee, at the direction of an ordinary Resolution of the Voting Secured Creditors, may agree) of becoming Insolvent;
- (d) either:
  - (i) the General Security Deed is or becomes wholly or partly void or voidable or is not, or ceases to be, valid and enforceable; or
  - (ii) any Encumbrance (other than a Permitted Encumbrance) is created or exists in respect of the Secured Property for a period of more than 10 Business Days following the Issuer becoming aware of the creation or existence of such Encumbrance, where such event will have a Material Adverse Payment Effect;
- (e) a Transaction Document, or a transaction in connection with it, is or becomes (or is claimed to be) wholly or partly void, voidable or unenforceable or does not have (or is claimed not to

have) the priority the Security Trustee intended it to have, where such event will have a Material Adverse Payment Effect (“claimed” for these purposes means claimed by the Issuer or anyone on its behalf);

- (f) the Trust is found, or is conceded by the Issuer, not to have been constituted or to have been imperfectly constituted; or
- (g) the Issuer is not entitled to fully exercise the right of indemnity conferred on it under the Master Trust Deed against the Series Assets to satisfy any liability to a Secured Creditor and the circumstances are not rectified to the reasonable satisfaction of the Security Trustee within 10 Business Days of the Security Trustee requiring the Issuer in writing to rectify them.

#### ***Waiver and authorisation of breaches by the Issuer***

The Security Trustee may from time to time and at any time (but only if, and in so far as, in its opinion the rights of the Secured Creditors will not be materially prejudiced thereby and provided that Rating Notification has been provided) authorise or waive, on such terms and subject to such conditions (if any) as seem expedient to it, any breach or proposed breach of any of the undertakings or provisions contained in the Master Trust Deed or any other Transaction Document in respect of the Series. However, unless it has received a direction from the Voting Secured Creditors to do so, the Security Trustee must not determine that any Event of Default in respect of a Trust or Series, or event which with the giving of notice, lapse of time or fulfilment of any other condition would be likely to constitute an Event of Default in respect of a Trust or Series, shall not be treated as such.

Any such authorisation, waiver or determination is binding on the Secured Creditors and shall be notified by the Manager to the Secured Creditors. The Security Trustee must provide the Manager with notice of its intention to make or provide an authorisation, waiver or determination under this clause and then not make or provide it until such time as the Manager notifies the Security Trustee that Rating Notification has been provided.

#### ***Actions following Event of Default***

If an Event of Default in respect of the Series is continuing, the Security Trustee may (or, if directed to do so by an Extraordinary Resolution of the Voting Secured Creditors, the Security Trustee must) do one or more of the following in addition to anything else the law allows the Security Trustee to do as a secured party:

- (a) sue the Issuer for the Secured Money; and
- (b) appoint one or more Receivers to all or any part of the Secured Property or its income; and
- (c) do anything that a Receiver could do under the General Security Deed.

The Security Trustee is not bound to take any proceedings after the occurrence of an Event of Default in respect of the Series unless it has been directed to do so by an Extraordinary Resolution of the Secured Creditors of the relevant Trust or Series passed at a meeting of Voting Secured Creditors convened by the Security Trustee under the Master Trust Deed. However, if, in the opinion of the Security Trustee, the delay required to obtain instructions from the Secured Creditors would be materially prejudicial to the interests of those Secured Creditors, the Security Trustee may (but is not obliged to) do the things referred to above without instructions from them.

#### ***Call meeting on the occurrence of an Event of Default***

If the Security Trustee becomes aware that an Event of Default is continuing and the Security Trustee does not waive the Event of Default, the Security Trustee agrees to do the following as soon as possible and in any event within 5 Business Days of the Security Trustee becoming aware of the Event of Default:

- (a) notify all Secured Creditors that the security interest granted under the General Security Deed has taken effect as a fixed charge and that all Series Assets are restricted assets (as described under the heading “General Security Deed” above);

- (b) provide to those Secured Creditors full details of:
  - (i) the Event of Default as advised by the Issuer to the Security Trustee or otherwise known to the Security Trustee; and
  - (ii) the actions and procedures which the Issuer has notified the Security Trustee are being taken or will be taken by the Issuer to remedy the relevant Event of Default; and
- (c) do all such things as are necessary or appropriate to promptly convene a meeting of the Voting Secured Creditors (for the purpose of seeking directions by way of Extraordinary Resolution).

### ***Voting Secured Creditors***

The Voting Secured Creditors will be the only Secured Creditors entitled to:

- (a) vote in respect of a Resolution of Secured Creditors (including an Extraordinary Resolution, but excluding any Special Quorum Resolution) of the Series except in relation to any matter requiring a Special Quorum Resolution; or
- (b) otherwise direct or give instructions or approvals to the Security Trustee in accordance with the Transaction Documents.

If at any time there is a conflict between a duty the Security Trustee owes to a Secured Creditor, or class of Secured Creditor, of the Series and a duty the Security Trustee owes to another Secured Creditor, or class of Secured Creditor, of the Series, the Security Trustee must give priority to the duties owing to the Voting Secured Creditors.

### ***Special Quorum Resolutions***

Certain matters require the passing of a Special Quorum Resolution of Secured Creditors. These include (among other matters) any resolution for the purpose of making any modification of the provisions contained in the Transaction Documents which:

- (a) postpones the date of maturity or redemption of any of the Notes or any date for payment of interest on the Notes; or
- (b) reduces or cancels the principal amount of the Notes or the rate of interest payable on them; or
- (c) varies the currency of account or currency in which any payment in respect of the relevant Notes is to be made; or
- (d) modifies the provisions contained in the Master Trust Deed concerning the quorum required at any meeting of Secured Creditors or any adjournment of a meeting or concerning the majority required to pass an Extraordinary Resolution.

A Special Quorum Resolution of Secured Creditors which in accordance with its terms:

- (a) only affects a particular class of Secured Creditors; or
- (b) affects a particular class of Secured Creditors in a manner differently to the rights of all the Secured Creditors of that Series generally,

will only be taken to be passed if it is also passed by a Special Quorum Resolution of that class of Secured Creditors.

### ***Application of proceeds following an Event of Default***

Following the occurrence of an Event of Default and enforcement of the General Security Deed, the Security Trustee must apply all moneys received by it in respect of the Secured Property in the order

described in 11.19 (“Application of proceeds following an Event of Default and enforcement of the General Security Deed”).

***No proceedings by Secured Creditors directly***

No Secured Creditor is entitled to proceed to recover any amounts of Secured Money directly against the Issuer unless the Security Trustee, having become bound to proceed as described in the above paragraphs fails to commence recovery within 10 Business Days.

***Security Trustee’s limitation of liability***

Except to the extent stated in the following paragraphs:

- (a) a liability or obligation arising under or in connection with any Transaction Document in respect of Series is limited to and can be enforced against the Security Trustee only to the extent to which it can be satisfied out of the Security Trust Fund out of which the Security Trustee is actually indemnified for the liability; and
- (b) this limitation of the Security Trustee’s liability applies despite any other provision of any Transaction Document and extends to all liabilities and obligations of, undertaken or incurred by, or devolving on, the Security Trustee arising from, or in any way connected with, any conduct, omission, representation, warranty, agreement, transaction or other matter or thing under or related to any Transaction Document.

The parties (other than the Security Trustee) may not sue the Security Trustee in any capacity other than as trustee of the Security Trust, including seeking the appointment of a receiver, a liquidator, an administrator or any similar person to the Security Trustee or prove in any liquidation, administration or arrangements of or affecting the Security Trustee.

This limitation of the Security Trustee’s liability will not apply to any liability or obligation of the Security Trustee to the extent that it is not satisfied because under any Transaction Document or by operation of law there is a reduction in the extent of the Security Trustee’s indemnification out of the Security Trust Fund, as a result of the Security Trustee’s fraud, negligence or wilful default.

However:

- (a) in no circumstances will the Security Trustee be personally liable for any indirect, incidental, consequential or special damages (including, without limitation, lost profits) of any form incurred by any person or entity, whether or not foreseeable and regardless of the type of action in which such a claim may be brought (except to the extent that there is a determination by a relevant court of fraud by the Security Trustee); and
- (b) in no event will the Security Trustee be personally liable for any failure or delay in the performance of its obligations under any Transaction Document because of circumstances beyond its control including, but not limited to, acts of God, flood, war (whether declared or undeclared), terrorism, fire, riot, embargo, labour dispute, any statute, ordinance, code or other law which restricts or prohibits the Security Trustee from performing its obligations under any Transaction Document, the inability to obtain or the failure of equipment or the interruption of communications or computer facilities to the extent, in each case, that these occurrences are beyond the control of the Issuer and any other causes beyond the Security Trustee’s control.

The Relevant Parties are responsible under the Master Trust Deed and the other Transaction Documents for performing a variety of obligations relating to the Trust and the Series. No act or omission of the Security Trustee (including any related failure to satisfy its obligations or breach of representation or warranty under the Master Trust Deed or any other Transaction Document) will be considered fraud, negligence or wilful default of the Security Trustee to the extent to which the act or omission was caused or contributed to by any failure by any Relevant Party or any other person to fulfil its obligations relating to the Security Trust or by any other act or omission of any Relevant Party or any other person (including, without limitation, any failure by the Manager to give a direction to the

Security Trustee) or any of its agents or contractors regardless of whether or not the act or omission is purported to be done on behalf of the Security Trustee.

No attorney, agent, receiver or receiver and manager or other person appointed in accordance with Master Trust Deed or any other Transaction Document has authority to act on behalf of the Security Trustee in a way which exposes the Security Trustee to any personal liability and no act or omission of such a person will be considered fraud, negligence or wilful default of the Security Trustee.

The Security Trustee is not obliged to do or refrain from doing anything under the Master Trust Deed or any other Transaction Document (including incur any liability) unless the Issuer's liability is limited in the same manner as set out in this section.

A reference to the "**fraud, negligence or wilful default**" of the Security Trustee means the fraud, negligence or wilful default of the Security Trustee and of its officers, employees, agents and any other person where the Security Trustee is liable for the acts or omissions of such other person under the terms of any Transaction Document.

A reference to the "**wilful default**" of the Security Trustee means any intentional failure to comply with or intentional breach by the Issuer of any of its obligations under any Transaction Document, other than a failure or breach which:

- (a) arose as a result of a breach by a person other than the Security Trustee and the performance of the action (or the non-performance of which gave rise to such breach) is a precondition to the Issuer performing the relevant obligation;
- (b) is in accordance with a lawful court order or direction required by law; and
- (c) is in accordance with an instruction or directions given by the Manager or is in accordance with an instruction or direction given to it by any person in circumstances where that person is entitled to do so by any Transaction Document or at law.

#### ***Knowledge of the Security Trustee***

The Security Trustee will not be taken to have notice or knowledge or to be aware of any fact or information unless:

- (a) it receives notice of that fact or information from the Manager; or
- (b) an officer of the Security Trustee having day to day responsibility for the administration or management of a Security Trust or the Security Trustee's obligations under the Transaction Documents, has actual notice or knowledge of or is aware of that fact or information.

#### ***Limitation on Security Trustee's responsibility***

The Security Trustee is not to:

- (a) be bound or concerned to examine or enquire into, nor be liable for any defect or failure in the title of the Issuer to any Secured Property;
- (b) be under any liability whatsoever for acting in accordance with any direction obtained from Secured Creditors at a meeting convened in accordance with the Master Trust Deed; or
- (c) be under any liability whatsoever for a failure to take any action in respect of any breach by the Issuer of its duties as trustee of the Trust of which the Security Trustee is not actually aware or in respect of any Event of Default of which the Security Trustee is not actually aware,

except to the extent that any such matter or liability is caused by the fraud, negligence or wilful default of the Security Trustee.

### ***Security Trustee's fees***

The Issuer, under the Master Trust Deed, has agreed to pay to the Security Trustee from time to time a fee (on terms agreed between the Issuer, the Manager and the Security Trustee from time to time) in respect of the Trust. Any increase to that fee must not be agreed unless a Rating Notification has been provided in respect of the increase.

### ***Voluntary retirement of Security Trustee***

Subject to compliance with the relevant statutory requirements for the time being, the Security Trustee may retire at any time in respect of the Security Trust upon the expiration of not less than 90 days' notice (or such other period as the Issuer may agree) in writing to the Issuer.

### ***Mandatory retirement of Security Trustee***

The Security Trustee must retire as security trustee if:

- (a) the Security Trustee becomes Insolvent in its personal capacity; or
- (b) the Security Trustee is in breach of a material obligation under the Transaction Documents and, where such breach is remediable, the Security Trustee has not remedied such breach within 30 days of becoming aware of it; or
- (c) required by law; or
- (d) the Issuer, upon 90 days prior written notice, requests the Security Trustee to retire as security trustee, provided that:
  - (i) no Event of Default is subsisting at that time in respect of any trust or series; and
  - (ii) the Manager has issued a Rating Notification in respect of the Security Trustee's retirement; or
- (e) the Security Trustee ceases to carry on business in all respects or as a professional trustee; or
- (f) there is a change in Control of the Security Trustee, which leads to an Adverse Rating Effect.

### ***Security Trustee to continue to act until replacement takes effect***

If the Security Trustee retires as described in the preceding paragraphs, the Security Trustee must continue to act as the security trustee in respect of the Security Trust (as the case may be) until:

- (a) a replacement security trustee nominated by the Manager and consenting to the appointment, has been appointed as security trustee of each relevant Security Trust (provided that if the Manager has not nominated a replacement security trustee within 60 days of the date of resignation of the Security Trustee, the Security Trustee may nominate any such replacement security trustee); and
- (b) the Security Trustee has procured the execution by the replacement security trustee of a deed whereby the replacement security trustee covenants to perform the duties and undertakes to meet the obligations of the Security Trustee under the Master Trust Deed, the Security Trust and each Transaction Document to which the Security Trustee is a party with respect to the Security Trust; and
- (c) the Security Trustee has assigned or transferred all of its rights under the Transaction Documents (to which it is a party) to the replacement security trustee.

## **12.5 The Management Deed**

Under the Management Deed the Manager must (among other things) make recommendations to the Issuer in relation to:

- (a) documentation to be entered into by the Issuer in respect of the Series;
- (b) the Reallocation of Receivables in respect of the Series;
- (c) the issue of Notes in respect of the Series; and

### ***Delegation by the Manager***

The Manager may delegate its duties and obligations under the Management Deed to any solicitor or similar person. The Manager will not be liable for the acts or omissions of any such delegate provided that the Manager appoints the delegate in good faith and using due care and that the delegate is not an officer, employee or Related Entity of the Manager.

In addition, the Manager may otherwise appoint any person as its agent or attorney provided the Manager may not delegate a material part of its powers, authorities and discretions. The Manager will remain liable for the acts or omissions of any such agent or attorney.

The Manager has appointed Perpetual Nominees Limited (ABN 37 000 733 700) pursuant to these powers to provide certain cashflow calculations and reporting services in relation to the Series.

### ***Manager's limitation of liability***

Without limiting the Manager's liability for delegates and agents as described above, neither the Manager nor any delegate of the Manager will be liable:

- (e) for any loss, costs, liabilities or expenses arising out of the exercise or non-exercise of its discretion or for any other act or omission on its part as Manager, except to the extent that the exercise or non-exercise of its discretion or the Manager's or the delegate's own act or omission is fraudulent, grossly negligent or in breach of duty or contract;
- (f) for any loss, costs, liabilities or expenses arising out of the act or omission, or exercise or non-exercise of a discretion of the Issuer, the Originator or the Servicer except to the extent that it is caused by the Manager's or the delegate's own fraud, gross negligence or breach of duty or contract; or
- (g) for any loss, costs, liabilities or expenses caused by its failure to check any information, document, form or list supplied or purported to be supplied to it by the Issuer, an Originator or the Servicer except to the extent that the loss is caused by the Manager's or the delegate's own fraud, gross negligence or breach of duty or contract.

In addition, the Manager will not be liable:

- (a) in connection with anything done by it in good faith in reliance upon any document, form or list except when it has reason to believe that the document, form or list is not genuine;
- (b) if it fails to do anything because it is prevented or hindered from doing it by law or order;
- (c) to anyone for payments (except when made negligently or made contrary to the provisions of the Transactions Documents) made by it in good faith to a fiscal authority in connection with Taxes or other charges in respect of the Trust or the Series Business, even if the payment need not have been made;
- (d) subject to the Corporations Act, if a person (other than a company under its control) fails to carry out an agreement with the Issuer in respect of the Trust or the Series or the Manager in connection with the Trust or the Series (except when the failure is due to its own neglect, fraud or default);
- (e) to anyone because of any error of law or any matter done or omitted to be done by it in good faith in the event of the liquidation or dissolution of a company (other than a company under its control and except where the liability arises due to its own neglect, fraud or default);
- (f) for any act, omission or default of the Originator or the Servicer;
- (g) because any person other than the Manager does not comply with its obligations under the Transaction Documents; or
- (h) because any statement, representation or warranty of any person other than the Manager in a Transaction Document is incorrect or misleading.

#### ***Manager's voluntary retirement***

The Manager may retire as the manager of the Series upon giving to the Issuer 3 months' notice in writing, or such lesser time as the Manager and the Issuer agree, provided that the Manager may not retire unless:

- (a) it has appointed a replacement manager which is acceptable to the Issuer;
- (b) the Manager has issued a Rating Notification in respect of its retirement; and
- (c) the replacement manager executes a deed under which it agrees to act as Manager in respect of the Series on, substantially, the same terms and for a fee determined on a market basis.

#### ***Removal of the Manager***

Upon the occurrence of a Manager Termination Event, the Issuer may terminate the appointment of the Manager as manager in respect of the Series by giving notice to the Manager. The Manager must comply with the terms of any such notice.

It is a "**Manager Termination Event**" in respect of the Series if:

- (a) the Manager commits a breach of any material obligation of a Transaction Document of the Series (other than a provision to which paragraph (c) below applies) (as determined in the reasonable opinion of the Issuer) and in the case of a breach that is capable of remedy, such breach is not remedied to the satisfaction of the Issuer (the Issuer may conclusively rely on the opinion or advice of any legal or other advisers of the Issuer or the Issuer in this regard) within 30 days of notice of such breach by the Issuer to the Manager;
- (b) any representation or warranty by the Manager in or in connection with the execution, delivery or performance of a Transaction Document is untrue or incorrect in any material respect and either:

- (i) such inaccuracy is not remedied to the satisfaction of the Issuer (the Issuer may conclusively rely on the opinion or advice of any legal or other advisers of the Issuer or the Issuer in this regard) within 30 days of notice of such inaccuracy by the Issuer to the Manager; or
  - (ii) the Manager has not paid an amount to the Issuer representing the loss suffered by the Issuer as a result of that inaccuracy (being an amount agreed between the Manager and the Issuer or, failing agreement, by the Issuer's auditors) within 30 days of notice of such inaccuracy by the Issuer to the Manager;
- (c) the Manager becomes Insolvent;
  - (d) the Manager ceases to carry on a financial services business; or
  - (e) the Manager fails to prepare and transmit to the Issuer any information necessary to enable the Issuer to make payments in relation to the Series by the date set out in the Transaction Documents and such failure is not remedied within 10 Business Days (or such longer period as the Issuer may agree) of notice being given by the Issuer to the Manager and as a result there is a failure to pay any amount due by the Issuer to any person in full on the date due.

### ***Appointment of a replacement Manager***

Upon service of the notice of termination by the Issuer following a Manager, the Issuer is required as soon as practicable procure the appointment of a replacement manager.

If the Manager is removed or gives notice of its retirement and no replacement manager has been appointed by the end of the applicable notice period, the Issuer must either:

- (a) subject to any approval required by law and on receipt of confirmation from each Rating Agency that no Adverse Effect would be caused, act as Manager (or appoint an agent to do so) until the appointment of a replacement manager is complete; or
- (b) call a meeting of Noteholders to give directions to the Issuer in connection with the appointment of any replacement manager.

If the Issuer acts as manager, the Issuer will not be responsible for, and will not be liable for, any inability to perform or deficiency in performing, its duties and obligations as manager if it is unable to perform those duties and obligations due to the state of affairs of the previous Manager, and its books and records or if it is unable (after using reasonable endeavours) to obtain information and documents or obtain access to software or resources which it requires and which are reasonably necessary for it to perform those duties and obligations.

### ***Costs of retirement or removal***

The outgoing Manager must reimburse the Issuer for all reasonable costs and expenses incurred by the Issuer in connection with the termination or retirement of the Manager as described above.

### ***Manager's fees and expenses***

The Issuer must pay such fees to the Manager in respect of the Series on such terms as are agreed between the Issuer and the Manager from time to time. Any increase to that fee must not be agreed unless a Rating Notification has been provided in respect of the increase.

The reasonable and proper fees, disbursements and expenses, duties and outgoings payable in relation to any person from whom the Manager obtains an opinion, advice or information under the Management Deed in relation to the Series are to be paid by the Issuer from the Series Assets.

## **12.6 The Servicing Deed**

### ***Appointment of the Servicer***

Under the Servicing Deed, the Issuer appoints the Servicer to service, manage and administer the Series Receivables.

### ***Obligations of the Servicer***

The Servicing Deed requires the Servicer to manage the Series Receivables using all proper care, skill and diligence, and all its experience and expertise in the management of Receivables, in accordance with Servicing Deed, the Servicing Procedures, the requirements of any relevant Insurance Policy and the written instructions of the Issuer, the Manager or the relevant Insurer.

In addition, the Servicer is required (among other things) to:

- (a) maintain the Title Documents for the Series Assets in accordance with the Servicing Procedures;
- (b) maintain appropriate account records for each Series Receivable;
- (c) operate and maintain the receivables management system so as to ensure the maintenance of an adequate system for tracking all transactions in relation to the Series Receivables;
- (d) provide agreed reports to the Issuer and the Manager;
- (e) comply with the requirements of any relevant laws including, without limitation, the National Consumer Credit Protection Laws, in exercising its rights and carrying out its obligations under the Servicing Deed and ensure that it does not cause the Issuer to breach such laws;
- (f) not do or omit to do anything which might or which cause or contribute to a deterioration in the value of any Receivable;
- (g) protect and enforce the Series Receivables;
- (h) remit Collections received by it in respect of the Series Receivables in accordance with the Transaction Documents; and
- (i) not release any Debtor from its obligations or vary or discharge any obligations under a Series Receivable or Related Security without the consent of the Issuer or as required by law or the Servicing Procedures.

### ***Servicing Procedures***

The Servicer may amend the Servicing Procedures from time to time, provided that 5 Business Days prior written notice is provided to each Rating Agency of amendments which, in the reasonable opinion of the Servicer, are material.

### ***Delegation and other dealings***

The Servicer may not delegate any part of its functions under the Servicing Deed to any person, except to a person appointed in accordance with the terms of the Servicing Deed or the Servicing Procedures.

The Servicer may, with the approval of the Issuer (acting on the direction of the Manager):

- (a) assign the whole, or any part, of its rights under the Servicing Deed or the fee arrangement between the Servicer and the Issuer to any person; or
- (b) create, incur or permit to exist, any Encumbrance over the whole, or any part of its rights under the Servicing Deed,

provided that the Issuer shall not give its approval unless the Manager has issued a Rating Notification in respect of that event.

The Issuer may delegate its functions (in whole or in part) under the Servicing Deed to any person. The Issuer remains liable to the Servicer for any act or omission of any delegate. If the Issuer delegates its functions to a person, the Servicer is entitled to assume that the delegate is acting with the authority in the performance of the duties which have been delegated to it and is not liable to any person in any manner whatsoever for relying on the acts of the delegate.

### ***Servicer's voluntary retirement***

Except where an Event of Default or Servicer Termination Event has occurred, and is continuing, in respect of the Series, the Servicer may retire as servicer in respect of the Series upon giving to the Issuer and the Manager 3 months written notice (or such lesser time as the Servicer and the Manager agree), provided that the Servicer may not retire unless and until:

- (a) the Manager has issued a Rating Notification in respect of the Servicer's retirement; and
- (b) if the Standby Servicing Deed has terminated or the Standby Servicer has been removed as standby servicer in accordance with the Standby Servicing Deed and not replaced:
  - (i) a successor servicer is appointed for that Series; and
  - (ii) the Manager has issued a Rating Notification in respect of the appointment of that successor servicer.

Upon the retirement of the Servicer, the Standby Servicer will, provided that the Standby Servicing Deed has not terminated and the Standby Servicer remains appointed as the standby servicer in accordance with the Standby Servicing Deed, be required to act as servicer in respect of the Series in accordance with the Standby Servicing Deed as described in Section 12.7 ("The Standby Servicing Deed").

### ***Removal of the Servicer***

Upon the occurrence of a Servicer Termination Event in respect of a Relevant Trust or Relevant Series, the Issuer may terminate the appointment as Servicer in respect of the Series by giving notice to the Servicer. The Servicer agrees to comply with the terms of any such notice.

It is a "**Servicer Termination Event**" in respect of the Series if:

- (a) the Servicer commits a breach of any material obligation of the Servicing Deed in respect of the Series (as determined in the reasonable opinion of the Manager) and in the case of a breach that is capable of remedy, such breach is not remedied to the satisfaction of the Manager (the Manager may conclusively rely on the opinion or advice of any legal or other advisers of the Manager in this regard) within 30 days of notice of such breach by the Manager to the Servicer;
- (b) any representation or warranty or agreement by the Servicer in or in connection with the execution, delivery or performance of the Servicing Deed in respect of the Series is untrue or incorrect in any material respect and either:
  - (i) such inaccuracy is not remedied to the satisfaction of the Manager (the Manager may conclusively rely on the opinion or advice of any legal or other advisers of the Manager in this regard) within 30 days of notice of such inaccuracy by the Manager to the Servicer; or
  - (ii) the Servicer has not paid an amount to the Issuer or Manager representing the loss suffered by the Manager as a result of that inaccuracy (being an amount agreed between the Servicer and the Issuer or Manager, as relevant, or, failing agreement, by the Manager's auditors) within 30 days of notice of such inaccuracy by the Issuer or Manager to the Servicer;

- (c) the Servicer becomes Insolvent;
- (d) the Servicer ceases to carry on a financial services business;
- (e) the Servicer fails to remit any amount received by it in respect of the Series Assets of the Series to the Issuer within the time period specified in the Master Servicer Deed and such failure is not remedied to the satisfaction of the Issuer within 3 Business Days of notice being given by the Issuer or the Manager to the Servicer; or
- (f) the Servicer fails to prepare and transmit to the Manager any information necessary to enable the Manager to instruct the Issuer to make payments in relation to the Series by the date set out in the Transaction Documents and such failure is not remedied within 3 Business Days of notice being given by the Issuer or the Manager to the Servicer and as a result there is a failure to pay any amount due by the Issuer to any person in full on the date due.

Upon service of a notice of termination by the Issuer to the Servicer following a Servicer Termination Event, the Issuer will as soon as practicable procure the appointment of a replacement servicer.

Upon service of a notice of termination by the Issuer to the Servicer following a Servicer Termination Event, the Standby Servicer will be required to act as servicer in accordance with the Standby Servicing Deed as described in Section 12.7 ("The Standby Servicing Deed").

### ***Servicer to provide full co-operation***

Following termination of the Servicing Deed or the removal or the retirement of the Servicer, the Servicer must immediately deliver to the new Servicer, any Title Documents held by the Servicer and all other documents (including, without limitation, loan and security documentation) held by the Servicer in relation to the Series (as applicable).

Following termination of the Servicing Deed or the removal or retirement of the Servicer, the Servicer must:

- (a) in respect of any computer equipment used by the Servicer in the servicing of the Series Receivables, grant any new Servicer (or its agent) access to such computer equipment; and
- (b) make available its employees to assist, or use its best endeavours to assist the new Servicer (or its agent) in procuring the employment of persons to assist the new Servicer in the performance of its duties.

For these purposes, the Servicer has agreed to grant to the new Servicer, or use its best endeavours to procure for the new Servicer, an irrevocable non-exclusive licence to use the software used by the Servicer in the course of performing its duties under the Servicing Deed and also to grant any new Servicer, a licence to enter and occupy any premises occupied by the Servicer from time to time from which it conducts the servicing of Receivables.

### ***Costs of retirement or removal***

The Servicer must reimburse the Issuer for all reasonable costs and expenses incurred by the Issuer in connection with the termination or retirement of the Servicer.

### ***Indemnity***

The Servicer indemnifies the Issuer on demand against any loss, cost, expense, damage or action which the Issuer may suffer or incur as a result of:

- (a) a breach by the Servicer of any of its representations, warranties, undertakings or covenants contained in the Servicing Deed or any other Transaction Document in respect of the Series;
- (b) any Penalty Payments the Issuer may become liable for or that arise directly or indirectly as a result of:

- (i) the performance or non-performance by the Servicer of its obligations or the exercise of its powers under the Servicing Deed or any other Transaction Document; and
- (ii) any breach by the Servicer of any of its representation and warranties under the Servicing Deed or any other Transaction Document,

except to the extent that any such loss, cost, expense, damage or action was caused by the fraud, negligence or wilful default of the Issuer.

### ***Servicer's liability***

The Servicer is not liable for any loss, costs, liabilities, damages or expenses suffered or incurred by the Issuer as a result of the Servicer acting, or failing to act, at the direction or instruction of the Manager.

In addition, the Servicer will not be in breach of its duties under the Servicing Deed, or otherwise liable to the Issuer, in respect of its actions performed strictly in accordance with the Servicing Procedures (provided that the Servicer is not aware that the Servicing Procedures do not materially comply with any law).

However, if the Servicer does not comply with the Servicing Procedures or any direction of the Manager or the Issuer, the Servicer will nevertheless not be liable if it reasonably believes and has a reasonable basis for believing that it would contravene any law by complying with the Servicing Procedures or the relevant direction.

### ***Servicer's fees and expenses***

The Issuer must pay such fees to the Servicer in respect of the Series as are agreed between the Issuer (at the direction of the Manager) and the Servicer from time to time. Any increase to that fee must not be agreed unless a Rating Notification has been provided in respect of the increase.

## **12.7 The Standby Servicing Deed**

### ***Appointment of the Standby Servicer***

Under the Standby Servicing Deed, the Standby Servicer is appointed to step in and act as servicer in respect of the Series Receivables in the event that the Servicer retires or is removed in the circumstances described in Section 12.6 ("The Servicing Deed") above. From the date of retirement or removal of the Servicer, the Standby Servicer is required to act as servicer and will be bound by and must comply with the relevant obligations of the Servicer under the Transaction Documents to which the Servicer was a party.

### ***Delegation***

The Standby Servicer may delegate any of its rights or obligations as Standby Servicer and may appoint professional advisers without notifying any person of the appointment. However, the Standby Servicer must not delegate a material part of its obligations under the Standby Servicing Deed without the prior written consent of the Manager, and (unless otherwise agreed in writing) will remain liable for its obligations under the Standby Servicing Deed notwithstanding any such delegation. Where the delegate is a Related Entity of the Standby Servicer, the Standby Servicer at all times remains liable for the acts and omissions of the Related Entity.

### ***Liability of Standby Servicer***

The liability of the Standby Servicer is limited in the same manner as that which applies in respect of its capacity as Issuer, as described in Section 12.3 ("The role of the Issuer under the Master Trust Deed") above. In addition, the Standby Servicer will not be liable for any inability perform, or any deficiency in performing, its duties and obligations as servicer to the extent that the Standby Servicer is unable to perform those duties and obligations due to matters including:

- the state of affairs of the Servicer, its books and records, business data, data collection, storage or retrieval systems or computer equipment or software prior to, or at the time of, the termination or retirement of the Servicer in accordance with the Servicing Deed;
- any acts or omissions at any time of the Servicer, the Manager or any agent of the Servicer or the Manager;
- any failure of any other person to perform its obligations under, and in accordance with, the Transaction Documents; or
- because the Standby Servicer complies with the Servicing Procedures,

except to that such liabilities are as a result of the fraud, negligence or wilful default of the Standby Servicer.

### ***Retirement and termination of appointment***

The Standby Servicer may retire as Standby Servicer in respect of the Series (whether or not the Standby Servicer has become obliged to act as servicer in accordance with the Standby Servicing Deed):

- immediately upon the appointment of a controller (within the meaning of the Corporations Act) to the Series or any of the Series Assets by written notice to the Issuer, the Manager and each Rating Agency; or
- immediately by written notice to the Issuer, the Manager and each Rating Agency, if any amounts owing to the Standby Servicer in respect of the Series are not paid when due and remain unpaid 30 days after the due date for payment.

The Manager may terminate the Standby Servicer's appointment as Standby Servicer in respect of the Series (whether or not the Standby Servicer has become obliged to act as servicer in accordance with the Standby Servicing Deed) upon giving not less than 90 days' notice in writing to the Issuer, the Standby Servicer and each Rating Agency.

In addition, the Voting Secured Creditors may direct the Issuer, and the Issuer must on receiving such direction:

- terminate the Standby Servicer's appointment as Standby Servicer in respect of the Series (whether or not the Standby Servicer has become obliged to act as servicer in accordance with the Standby Servicing Deed); and
- notify each Rating Agency of the termination of the Standby Servicer's appointment in respect of the Series.

### ***Standby Servicer's fees and indemnification***

The Standby Servicer is entitled to a fee payable by the Issuer in accordance with the Cashflow Allocation Methodology. In addition, the Standby Servicer (or its agent) is indemnified by the Issuer in relation to matters relating to the performance of its obligations or duties as standby servicer, except to the extent that the costs, charges or expenses arose from the Standby Servicer's (or its agent's) fraud, negligence or wilful default.

## **12.8 The Derivative Contracts**

### ***Interest Rate Swap Agreement***

The Issuer may enter into interest rate swaps from to time under the Interest Rate Swap Agreement with the Counterparty to hedge the interest rate risk in respect of any fixed rate of interest payable on the Series Receivables (where those Series Receivables become subject to a fixed rate of interest and are not sold by the Issuer as described in Section 5.7 ("Fixed Rate Housing Loans")).

### ***Counterparty Downgrade***

If, as a result of the withdrawal or downgrade of the Counterparty's credit rating by any Rating Agency, the Counterparty does not have a short term credit rating or long term credit rating as designated in the relevant Derivative Contract, the Counterparty may be required to, at its cost, take certain action within certain timeframes specified in that Derivative Contract.

This action may include in respect of the particular downgrade one of the following:

- (a) lodging collateral as determined under the Derivative Contract;
- (b) entering into an agreement novating the Derivative Contract to a replacement counterparty which holds the relevant ratings;
- (c) procuring another person to become a co-obligor or unconditionally and irrevocably guarantee the obligations of the Counterparty under the Derivative Contract; or
- (d) entering into other arrangements in respect of which a Rating Notification is given.

Additionally, in respect of the downgrade of the Counterparty below certain credit ratings, the Counterparty may be required to both lodge collateral and to take one of the other courses of action described in paragraphs (b) to (d) (inclusive) above.

If the Counterparty lodges collateral with the Issuer, any interest or income on that collateral will be paid to that Counterparty, provided that any such interest or income will only be payable to the extent that any payment will not reduce the balance of the collateral to less than the amount required to be maintained.

The Issuer may only dispose of any investment acquired with the collateral lodged in accordance with paragraph (a) above or make withdrawals of the collateral lodged in accordance with paragraph (a) above if directed to do so by the Manager for certain purposes prescribed in the relevant Derivative Contract.

The complete obligations of the Counterparty following the downgrade of its credit rating is set out in the relevant Derivative Contract.

### ***Termination***

A party to a Derivative Contract may have the right to terminate its Derivative Contract if (among other things):

- (a) the other party fails to make a payment under the Derivative Contract within 3 Business Days after notice of failure given to it;
- (b) certain insolvency related events occur in relation to the other party;
- (c) the other party merges with, or otherwise transfers all or substantially all of its assets to, another entity and the new entity does not assume all of that other party's obligations under the Derivative Contract;
- (d) a force majeure event occurs; and
- (e) due to a change in or a change in interpretation of law, it becomes illegal for the other party to make or receive payments, perform its obligations under any credit support document or comply with any other material provision of the Derivative Contract.

The Counterparty will also have the right to terminate the Derivative Contract if an Event of Default occurs and the Security Trustee has declared the Secured Moneys of the Series immediately due and payable.

The Issuer will also have the rights to terminate the Derivative Contract if (among other things) the Counterparty fails to comply with or perform any agreement or its obligations referred to in paragraphs (a) to (d) (inclusive) under the heading “Counterparty Downgrade” above within the timeframes specified in that Derivative Contract.

## **12.9 The Liquidity Facility Agreement**

### ***General***

Under the Liquidity Facility Agreement, the Liquidity Facility Provider grants to the Issuer a loan facility in Australian dollars in respect of the Series in an amount equal to the Liquidity Limit.

The Liquidity Facility is only available to be drawn to fund any Liquidity Draws and Accrual Advances up to the Liquidity Limit.

### ***Liquidity Advances***

If, on any Determination Date during the Availability Period, the Manager determines that a Liquidity Draw or an Accrual Advance is required under the Issue Supplement, the Manager must arrange, by giving a direction to the Issuer, for a Liquidity Advance to be made under the Liquidity Facility on the Payment Date immediately following that day in accordance with the Liquidity Facility Agreement. The Liquidity Advance must be equal to the lesser of:

- (a) the aggregate of any such Liquidity Draw and any such Accrual Advance (as applicable) on that day; and
- (b) the Available Liquidity Amount on that day.

### ***Interest***

Interest on each Liquidity Advance accrues from day to day and is to be calculated on actual days elapsed and a 365 day year.

The rate of interest paid to the Liquidity Facility Provider in respect of a Liquidity Interest Period is the sum of the bank bill rate (as determined in accordance with the Liquidity Facility Agreement) on the first day of that Liquidity Interest Period and 1.15% per annum (or such other rate as the Manager and the Liquidity Facility Provider may agree from time to time, provided that a Rating Notification is given) (“**Liquidity Interest Rate**”).

A “**Liquidity Interest Period**” in respect of a Liquidity Advance commences on (and includes) its Drawdown Date and ends on (but excludes) the next Payment Date. Each subsequent Liquidity Interest Period will commence on (and include) a Payment Date and end on (but exclude) the next Payment Date. However, a Liquidity Interest Period in respect of a Liquidity Advance which would otherwise end after the termination date of the Trust ends on (but excludes) that termination date.

Interest is payable in arrears on each Payment Date. If, on any Payment Date, all amounts on account of interest due under the Liquidity Facility Agreement are not paid in full, on each following Payment Date the Issuer must pay so much of the amounts as are available for that purpose in accordance with the Issue Supplement until such amounts are paid in full.

### ***Downgrade of Liquidity Facility Provider***

If at any time (for so long as any Notes are outstanding) the Liquidity Facility Provider does not have the Required Liquidity Rating, the Liquidity Facility Provider must within 30 calendar days (or such longer period as may be agreed by the Manager and the Liquidity Facility Provider and provided a Rating Notification has been given in respect of that longer period) of such downgrade do one of the following (as determined by the Liquidity Facility Provider in its discretion):

- (a) procure a replacement Liquidity Facility;

- (b) request the Manager to request a Collateral Advance for an amount equal to the Available Liquidity Amount; or
- (c) implement such other structural changes so that the downgrading of the Liquidity Facility Provider does not have an Adverse Rating Effect.

### ***Collateral Advance***

On receipt of a request from the Liquidity Facility Provider as described in paragraph (b) of the section entitled “Downgrade of Liquidity Facility Provider” above, the Manager must arrange, by giving a direction to the Issuer, for a Collateral Advance to be made under the Liquidity Facility equal to the Available Liquidity Amount.

The Liquidity Facility Provider must, subject to the terms of the Liquidity Facility Agreement, deposit in the Liquidity Collateral Account the amount of any Collateral Advance in immediately available funds by 12.00pm on the relevant day on which that advance is required by the Manager.

If, on any Determination Date after a Collateral Advance has been made, the Manager would, but for the fact that the Liquidity Facility has been fully drawn, be required to arrange for a Liquidity Advance in accordance with Section 11.11 (“Accrual Advance”) or Section 11.12 (“Liquidity Draw”) (and the Liquidity Facility Provider would, but for the fact that the Liquidity Facility has been fully drawn, be required to provide the Liquidity Advance), the Manager must direct the Issuer to transfer from the Collateral Account into the Collection Account an amount equal to the lesser of:

- (a) the Liquidity Advance; and
- (b) the Collateral Account Balance,

by no later than 12.00pm on the immediately following Payment Date.

Any such withdrawal from the Collateral Account will be deemed to be a Liquidity Advance.

If at any time after a Collateral Advance has been made:

- (a) the Liquidity Facility Provider obtains the Required Liquidity Rating (or, if the credit rating of the Liquidity Facility Provider continues to be less than the Required Liquidity Rating, but the Manager determines that it may give a direction as described below and has provided Rating Notification in respect of that direction);
- (b) the Liquidity Facility Provider complies with sub-paragraphs (a) or (c) of the section above entitled “Downgrade”; or
- (c) the Liquidity Facility granted under the Liquidity Facility Agreement is terminated in accordance with the Liquidity Facility Agreement (other than as a result of the occurrence of the Availability Termination Date),

then the Liquidity Facility Provider must notify the Manager of that event and the Manager must then direct the Issuer to, and the Issuer must, repay to the Liquidity Facility Provider the Collateral Account Balance (if any) within 1 Business Day of being so directed by the Manager in repayment of the then outstanding Collateral Advances.

Except as described in the following sentence, all interest or other returns accrued (net of all costs properly incurred by the Issuer in respect of the operation of the Liquidity Collateral Account under the Liquidity Facility Agreement) on the Liquidity Collateral Account Balance, or on any Authorised Investments purchased with the Liquidity Collateral Account Balance, which have been credited to the Liquidity Collateral Account must be paid by the Issuer to the Liquidity Facility Provider on each Payment Date. However, if losses are realised on any Authorised Investments purchased with the Liquidity Collateral Account Balance or on the Liquidity Collateral Account Balance, no such interest or other returns will be paid to the Liquidity Facility Provider until the aggregate of such interest or other returns exceeds the aggregate of such losses, in which case the Liquidity Facility Provider will be entitled only to receive such excess amount.

A “**Collateral Advance**” is the principal amount of each advance made by the Liquidity Facility Provider pursuant to a request by the Manager in accordance with the Liquidity Facility Agreement, or the balance of such advance outstanding from time to time as the context requires and includes any deemed Collateral Advance.

The “**Liquidity Collateral Account**” is a segregated account opened at the direction of the Manager in the name of the Issuer with an Eligible Bank to which the proceeds of any Collateral Advance are to be deposited.

The “**Liquidity Collateral Account Balance**” is, at any time, the balance of the Collateral Account at that time plus, if any amount from the Collateral Account has been invested in Authorised Investments, the face value of such Authorised Investments.

### ***Availability Fee***

The Issuer will pay to the Liquidity Facility Provider an availability fee of 0.70% per annum on the then un-utilised portion of the Liquidity Limit. The fee will be calculated and accrue daily from the first day of the Availability Period on the basis of a 365 day year and paid monthly in arrears on each Payment Date in accordance with the Issue Supplement.

The availability fee may be varied from time to time by the Manager and the Liquidity Facility Provider (and notified to the Issuer) provided that a Rating Notification has been provided.

### ***Liquidity Event of Default***

A Liquidity Event of Default occurs if:

- (a) the Issuer fails to pay:
  - (i) any amount owing under the Liquidity Facility Agreement where funds are available for that purpose under the Issue Supplement; or
  - (ii) without limiting paragraph (i) above, any amount due in respect of interest on Liquidity Advances under the Liquidity Facility Agreement where funds are available for that purpose under the Issue Supplement,in the manner contemplated by the Liquidity Facility Agreement, in each case within 3 Business Days of the due date for payment of such amount;
- (b) the Issuer alters or the Manager instructs it to alter the priority of payments under the Transaction Documents without the consent of the Liquidity Facility Provider or the Issuer breaches any of its undertakings under the Liquidity Facility Agreement and that breach has a Material Adverse Effect in respect of the Liquidity Facility Provider;
- (c) an Event of Default occurs and the Security Trustee enforces the General Security Deed;
- (d) the Issuer becomes Insolvent and the Issuer is not replaced in accordance with the Master Trust Deed within 60 days of it becoming Insolvent;
- (e) a representation or warranty made or taken to be made by the Issuer in connection with the Liquidity Facility Agreement is found to have been incorrect or misleading when made or taken to be made and that breach has a Material Adverse Effect in respect of the Liquidity Facility Provider; or
- (f) the Security Trustee requests the Issuer to obtain a priority agreement under the General Security Deed in respect of an Encumbrance over the Series Assets (where the law entitles the Issuer to create another Encumbrance over the Secured Property without the consent of the Security Trustee and that law cannot be excluded) and the Issuer has not complied with that request by the time that Encumbrance is created.

If a Liquidity Event of Default occurs, then the Liquidity Facility Provider may, without being obliged to do so and notwithstanding any waiver of any previous default:

- (a) declare at any time that the Liquidity Principal Outstanding, interest on the Liquidity Principal Outstanding, and all other amounts actually or contingently payable under the Liquidity Facility Agreement are immediately due and payable; and/or
- (b) terminate the Liquidity Facility Provider's obligations in respect of the Liquidity Facility.

The Liquidity Facility Provider may do either or both of these things with immediate effect.

### ***Termination of Liquidity Facility***

The Liquidity Facility will terminate on the earlier of the Liquidity Facility Termination Date and the Liquidity Facility Provider Termination Date.

The "**Liquidity Facility Termination Date**" is the earliest of:

- (a) the Availability Termination Date;
- (b) the date which is one month after the date upon which all Notes have been fully and finally redeemed in full in accordance with the Transaction Documents in respect of the Series;
- (c) the date on which the Liquidity Facility Provider terminates the Liquidity Facility in accordance with its terms on the basis of illegality or impossibility in continuing to provide the Liquidity Facility following a change in law, regulation, code of practice or directive;
- (d) the date upon which the Liquidity Limit is cancelled or reduced to zero following a request by the Issuer (provided that a Rating Notification has been given in respect of the cancellation or reduction); and
- (e) the date upon which the Liquidity Facility Provider terminates the Liquidity Facility following a Liquidity Event of Default.

The "**Liquidity Facility Provider Termination Date**" is the later of:

- (a) the Payment Date declared by the Manager (by giving not less than 5 Business Days' notice to the Liquidity Facility Provider) as the date upon which the Liquidity Facility Provider will be replaced by a substitute Liquidity Facility Provider and the Liquidity Facility will terminate; and
- (b) the date upon which the Issuer has paid or repaid to the Liquidity Facility Provider all Liquidity Advances outstanding on the Payment Date declared by the Issuer pursuant to paragraph (a) above together with all accrued but unpaid interest and all other money outstanding under the Liquidity Facility Agreement.

On or before the declaration of a Payment Date upon which the Liquidity Facility Provider will be replaced by a substitute Liquidity Facility Provider and the Liquidity Facility will terminate, the Manager must provide a Rating Notification in respect of the termination of the Liquidity Facility and the appointment of the proposed substitute Liquidity Facility Provider on that Payment Date.

## 13 GENERAL INFORMATION

### 13.1 Australian Taxation

*The following is a general summary of the material Australian tax consequences under the Income Tax Assessment Act 1936 (Cth) and Income Tax Assessment Act 1997 (Cth) (together, “**Australian Tax Act**”) of the purchase, ownership and disposition of the Offered Notes by Noteholders who purchase the Offered Notes during the original issuance at the stated offering price. This summary represents the Australian tax law enacted and in force as at the date of this Information Memorandum which is subject to change, possibly with retrospective effect.*

*The following summary is not exhaustive and should be treated with appropriate caution. It does not deal with the position of all classes of Noteholders (including dealers in securities, custodians or other third parties who hold Offered Notes on behalf of any Noteholders). This summary is not intended to be construed as legal or tax advice to any particular investor. Prospective Noteholders should consult their professional advisers on the tax implications of an investment in the Offered Notes for their particular circumstances.*

#### **Trust**

Upon its establishment the Trust will not be a member of an income tax consolidated group for the purposes of the consolidation rules in the Australian Tax Act.

#### **Interest Withholding Tax on interest payments**

An exemption from Australian interest withholding tax imposed under Division 11A of Part III of the Australian Tax Act (“**IWT**”) is available in respect of the Offered Notes issued by the Issuer under section 128F of the Australian Tax Act if the following conditions are met:

- (a) the Issuer is a company as defined in section 128F(9) (which includes certain companies acting in their capacity as trustee) and a resident of Australia when it issues those Offered Notes and when interest (as defined in section 128A(1AB) of the Australian Tax Act) is paid. Interest is defined in section 128A(1AB) of the Australian Tax Act to include amounts in the nature of, or in substitution for, interest and certain other amounts;
- (b) those Offered Notes are issued in a manner which satisfies the public offer test. There are five principal methods of satisfying the public offer test, the purpose of which is to ensure that lenders in overseas capital markets are aware that the Issuer is offering those Offered Notes for issue. In summary, the five methods are:
  - (i) offers to 10 or more unrelated financiers or securities dealers;
  - (ii) offers to 100 or more investors of a certain type;
  - (iii) offers of listed Offered Notes;
  - (iv) offers via publicly available information sources; and
  - (v) offers to a dealer, manager or underwriter who offers to sell those Offered Notes within 30 days by one of the preceding methods.

The issue of any of the Offered Notes (whether in global form or otherwise) and the offering of interests in any of those Offered Notes by one of these methods should satisfy the public offer test;

- (c) the Issuer does not know or have reasonable grounds to suspect, at the time of issue, that those Offered Notes or interests in those Offered Notes were being, or would later be, acquired directly or indirectly by an “associate” of the Issuer, except as permitted by section 128F(5) of the Australian Tax Act; and

- (d) at the time of the payment of interest, the Issuer does not know, or have reasonable grounds to suspect, that the payee is an “associate” of the Issuer, except as permitted by section 128F(6) of the Australian Tax Act.

### **Associates**

Since the Issuer is a trustee of a trust, the entities that are “associates” of the Issuer for the purposes of section 128F of the Australian Tax Act include:

- (a) any entity that benefits, or is capable of benefiting, under the Trust (“**Beneficiary**”), either directly or through any interposed entities; and
- (b) any entity that is an associate of a Beneficiary that is a company. An associate of a Beneficiary for these purposes includes:
  - (i) an entity that holds more than 50% of the voting shares of, or otherwise controls, the Beneficiary;
  - (ii) an entity in which more than 50% of the voting shares are held by, or which is otherwise controlled by, the Beneficiary;
  - (iii) a trustee of a trust where the Beneficiary is capable of benefiting (whether directly or indirectly) under that trust; and
  - (iv) an entity that is an “associate” of an entity that is an “associate” of the Beneficiary under (i) above.

However, sections 128F(5) and (6) do not prevent payments under the Offered Notes from being tax exempt under section 128F, where the Offered Notes are issued to and the interest is paid to:

- (a) onshore associates (ie Australian resident “associates” who do not hold the Offered Notes in the course of carrying on business at or through a permanent establishment outside Australia and non-resident associates who hold the Offered Notes in the course of carrying on business at or through a permanent establishment in Australia); or
- (b) offshore associates (ie Australian resident “associates” that hold the Offered Notes in the course of carrying on business at or through a permanent establishment outside Australia and non-resident associates who do not hold the Offered Notes in the course of carrying on business at or through a permanent establishment in Australia) who are acting in the capacity of:
  - (i) in the case of section 128F(5), a dealer, manager or underwriter in relation to the placement of the relevant Offered Notes or a clearing house, custodian, funds manager or responsible entity of a registered managed investment scheme; or
  - (ii) in the case of section 128F(6), a clearing house, paying agent, custodian, funds manager or responsible entity of a registered managed investment scheme.

### **Compliance with section 128F of the Australian Tax Act**

It is intended that the Issuer will offer and issue the Offered Notes in a manner which will satisfy the requirements of section 128F of the Australian Tax Act.

### **Noteholders in Specified Countries**

The Australian Government has signed new or amended double tax conventions (“**New Treaties**”) with a number of countries (each a “**Specified Country**”) which contain certain exemptions from IWT.

In broad terms, the New Treaties effectively prevent or reduce IWT applying to interest derived by:

- (a) the government of the relevant Specified Country and certain governmental authorities and agencies in the Specified Country; or
- (b) a “financial institution” which is a resident of the Specified Country and which is unrelated to and dealing wholly independently with the Issuer. The term “financial institution” refers to either a bank or any other form of enterprise which substantially derives its profits by carrying on a business of raising and providing finance. (However, interest under a back-to-back loan or an economically equivalent arrangement will not qualify for this exemption.)

The Australian Federal Treasury maintains a listing of Australia’s double tax conventions which provides details of country, status, withholding tax rate limits and Australian domestic implementation which is available to the public at the Federal Treasury’s Department’s website at <http://www.treasury.gov.au>.

*No payment of additional amounts*

Despite the fact that the Offered Notes are intended to be offered and issued in a manner which will satisfy the requirements of section 128F of the Australian Tax Act, and unless expressly provided to the contrary in any relevant supplement to this Information Memorandum, if the Issuer is at any time compelled or authorised by law to deduct or withhold an amount in respect of any Australian withholding taxes imposed or levied by the Commonwealth of Australia in respect of the Offered Notes, the Issuer is not obliged to pay any additional amounts in respect of such deduction or withholding.

**Other matters**

Under Australian laws as presently in effect:

- (a) income tax – offshore Noteholders – assuming the requirements of section 128F of the Australian Tax Act are satisfied with respect to the Offered Notes, payment of principal and interest (as defined in section 128A(1AB) of the Australian Tax Act) to a holder of the Offered Notes, who is a non-resident of Australia and who, during the taxable year, does not hold the Offered Notes in the course of carrying on business at or through a permanent establishment in Australia (“**non-Australian Holder**”), will not be subject to Australian income taxes; and
- (b) income tax – Australian Noteholders – Australian residents or non-Australian residents who hold the Offered Notes in the course of carrying on business at or through a permanent establishment in Australia (“**Australian Holders**”), will be assessable for Australian tax purposes on income either received or accrued to them in respect of the Offered Notes. Whether income will be recognised on a cash receipts or accruals basis will depend upon the tax status of the particular Noteholder and the terms and conditions of the Offered Notes. Special rules apply to the taxation of Australian residents who hold the Offered Notes in the course of carrying on business at or through a permanent establishment outside Australia which vary depending on the country in which that permanent establishment is located;
- (c) gains on disposal of Offered Notes – offshore Noteholders – a non-Australian Holder will not be subject to Australian income tax on gains realised during that year on the sale or redemption of the Offered Notes, provided such gains do not have an Australian source. A gain arising on the sale of Offered Notes by a non-Australian Holder to another non-Australian Holder where the Offered Notes are sold outside Australia and all negotiations are conducted, and documentation executed, outside Australia would not be regarded as having an Australian source;
- (d) gains on disposal of Offered Notes – Australian Noteholders – Australian Holders will be required to include any gain or loss on disposal of the Offered Notes in their taxable income. Special rules apply to the taxation of Australian residents who hold the Offered Notes in the course of carrying on business at or through a permanent establishment outside Australia which vary depending on the country in which that permanent establishment is located;
- (e) deemed interest – there are specific rules that can apply to treat a portion of the purchase price of Offered Notes as interest for IWT purposes when certain Offered Notes originally

issued at a discount or with a maturity premium or which do not pay interest at least annually are sold to an Australian Holder.

As the Offered Notes are not issued at a discount and do not have a maturity premium, and interest will be payable on the Offered Notes at least annually, these rules should not apply to the Offered Notes. These rules also do not apply in circumstances where the deemed interest would have been exempt under section 128F of the Australian Tax Act if the Offered Notes had been held to maturity by a non-resident;

- (f) death duties – no Offered Notes will be subject to death, estate or succession duties imposed by Australia, or by any political subdivision or authority therein having power to tax, if held at the time of death;
- (g) stamp duty and other taxes – no ad valorem stamp, issue, registration or similar taxes are payable in Australia on the issue or transfer of any Offered Notes;
- (h) other withholding taxes on payments in respect of Offered Notes – section 12-140 of Schedule 1 to the Taxation Administration Act 1953 (Cth) (“**Taxation Administration Act**”) imposes a type of withholding tax at the rate of (currently) 46.5% on the payment of interest on certain registered securities unless the relevant payee has quoted an Australian tax file number (“**TFN**”) (or, in certain circumstances, an Australian Business Number (“**ABN**”)) or proof of an appropriate exemption. Assuming the requirements of section 128F of the Australian Tax Act are satisfied with respect to the Offered Notes, the requirements of section 12-140 do not apply to payments to a holder of Offered Notes in registered form who is not a resident of Australia and not holding those Offered Notes in the course of carrying on business at or through a permanent establishment in Australia. Payments to other classes of holders of Offered Notes in registered form may be subject to withholding where the holder of those Offered Notes does not quote a TFN (or, in certain circumstances, an ABN) or provide proof of an appropriate exemption;
- (i) supply withholding tax – payments in respect of the Offered Notes can be made free and clear of the “supply withholding tax” imposed under section 12-190 of Schedule 1 to the Taxation Administration Act;
- (j) debt/equity rules – Division 974 of the Australian Tax Act contains tests for characterising debt (for all entities) and equity (for companies) for Australian tax purposes, including for the purposes of dividend withholding tax and IWT. The Issuer intends to issue Offered Notes which should be characterised as “debt interests” for the purposes of Division 974 and returns paid on the Offered Notes should be “interest” for the purpose of section 128F of the Australian Tax Act. Accordingly, Division 974 is unlikely to affect the Australian tax treatment of holders of Offered Notes;
- (k) thin capitalisation – the thin capitalisation rules are contained in Division 820 of the Australian Tax Act. These rules deal with Australian resident groups and other Australian resident entities with overseas operations, where the relevant Australian resident entities are deemed to have excessive debt;
- (l) under section 820-39 of the Australian Tax Act certain *bona fide* securitisation vehicles are exempt from the thin capitalisation rules. An entity will come within the exemption where the following conditions are met:
  - (i) the entity is established for the purpose of managing some or all of the economic risk associated with assets, liabilities or investments (whether the entity assumes the risk from another entity or creates the risk itself);
  - (ii) the total value of debt interests in the entity is at least 50% of the total value of the entity's assets; and
- (m) the entity is an insolvency remote special purpose entity according to the criteria of an internationally recognised rating agency applicable to the entity's circumstances.

The Issuer is expected to satisfy the above conditions (and thus be exempt from the thin capitalisation rules);

- (n) additional withholdings from certain payments to non-residents – section 12-315 of Schedule 1 to the Taxation Administration Act gives the Governor-General power to make regulations requiring withholding from certain payments to non-residents. However, section 12-315 expressly provides that the regulations will not apply to “interest” (within the meaning of the IWT rules) payments that are subject to, or specifically exempt from, the IWT rules. Further, regulations may only be made if the responsible Minister is satisfied the specified payments are of a kind that could reasonably relate to assessable income of foreign residents. The regulations that have so far been promulgated under section 12-315 as at the date of this Information Memorandum are not applicable to any payments in respect of the Offered Notes. The possible application of any future regulations to the proceeds of any sale of the Offered Notes will need to be monitored;
- (o) taxation of foreign exchange gains and losses – Divisions 230, 775 and 960 of the Australian Tax Act, together with related regulations, contain complex rules to deal with the taxation consequences of foreign exchange transactions. As all payments under the Offered Notes will be in Australian dollars, and provided that all the receivables and receipts of the Issuer are in Australian dollars, these rules should not apply to the Issuer; and
- (p) taxation of financial arrangements – Division 230 contains rules which represent a code for the taxation of receipts and payments in relation to financial arrangements. The rules contain a number of different methods for bringing to account gains and losses in relation to “financial arrangements” (including, fair value, accruals, retranslation, realisation, hedging and financial records). Division 230 does not override the interest withholding tax exemption available under section 128F of the Australian Tax Act.

### **Goods and Services Tax**

Neither the issue nor receipt of the Offered Notes will give rise to a liability for GST in Australia on the basis that the supply of Offered Notes will comprise either an input taxed financial supply or (in the case of an offshore non-resident subscriber) a GST-free supply. Furthermore, neither the payment of principal or interest by the Trust, nor the disposal of the Offered Notes, would give rise to any GST liability on the part of the Trust.

The supply of some services made to the Trust may give rise to a liability for GST on the part of the relevant service provider.

In relation to the acquisition of these taxable services by the Trust:

- (a) In the ordinary course of business, the service provider would charge the Trust an additional amount on account of GST unless the agreed fee is already GST-inclusive.
- (b) Assuming that the Trust exceeds the financial acquisitions threshold for the purposes of Division 189 of the GST Act, the Trust would not be entitled to a full input tax credit from the ATO to the extent that the acquisition relates to:
  - (i) the Trust's input taxed supply of issuing Offered Notes (ie Offered Notes issued to (A) Australian residents or (B) to non-residents acting through a fixed place of business in Australia); and
  - (ii) the acquisition by the Trust of the Receivables.

In the case of acquisitions which relate to the making of supplies of the nature described above, the Trust may still be entitled to a “reduced input tax credit” (which is equal to 75% of 1/11th of the GST-inclusive consideration payable by the Trust to the person making the taxable supply) in relation to certain acquisitions prescribed in the GST regulations, but only where the Trust is the recipient of the taxable supply and the Trust either provides or is liable to provide the consideration for the taxable supply.

- (c) To the extent that the Trust makes acquisitions that attract GST, and those services relate to the Trust's GST-free supply of the Offered Notes to non-residents, the Trust will be entitled to full input tax credits.
- (d) Where services are provided to the Trust by an entity comprising an associate of the Trust for income tax purposes, those services are provided for nil or less than market value consideration, and the Trust would not be entitled to a full input tax credit, the relevant GST (and any input tax credit) would be calculated by reference to the market value of those services.

In the case of supplies performed outside Australia for the purposes of the Trust's business, these may attract a liability for Australian GST if they are supplies of a kind which would have been taxable if they occurred in Australia and if the Trust would not have been entitled to a full input tax credit if the supply had been performed in Australia. This is known as the "reverse charge" rule. Where the rule applies, the liability to pay GST to the ATO falls not on the supplier, but on the Trust.

Where services are performed offshore for the Trust and the supplies relate solely to the issue of Offered Notes by the Trust to Australian non-residents who subscribe for the Offered Notes through a fixed place of business outside Australia, the "reverse charge" rule should not apply to these offshore supplies. This is because the Trust would have been entitled to a full input tax credit for the acquisition of these supplies if the supplies had been performed in Australia.

Where GST is payable on a taxable supply made to the Trust but a full input tax credit is not available, this will mean that less money is available to pay interest on the Offered Notes or other liabilities of the Trust.

### **14.2 Weighted Average Life of the Notes**

The weighted average life of the Notes refers to the average amount of time that will elapse from the Closing Date until the Notes have been repaid in full.

The weighted average life of the Notes will be influenced by a number of factors including the rate of scheduled repayment of the Series Receivables, the rate of unscheduled repayment of the Series Receivables and the exercise of the Call Option. The weighted average lives of the Notes cannot be predicted due to the uncertain nature of unscheduled principal repayments. However, given certain assumptions, the weighted average lives of the Notes can be estimated.

Table 1 below represents possible weighted average lives of the Notes and has been prepared on the following assumptions:

- (a) The Series Receivables are subject to constant rates of principal prepayment (“**CPR**”) as indicated in Table 1. For example, a 100% prepayment scenario with CPR levels of 15% to 20% assumes a CPR curve starting from 15% principal prepayment and, for the first 12 months from the Closing Date, ramped to 20%. Each CPR increases on a linear basis during the first 12 months to the indicated CPR level.
- (b) Table 1 shows the weighted average life of the Notes under the assumption that the Issuer exercises the Call Option on the first Call Option Date.
- (c) Redraws have not been specifically modelled.
- (d) No Series Receivable is in arrears or incurs Losses.
- (e) No Series Receivables are sold by the Issuer other than in order to exercise the Call Option.
- (f) Series Receivables sold are assumed to be sold at their Outstanding Balance.
- (g) The fixed rate Series Receivables and interest only Series Receivables in the indicative pool will not have a significant effect on prepayment.
- (h) The portfolio of Series Receivables is acquired on the Closing Date at the aggregate Outstanding Balance on the Cut-Off Date.
- (i) Payments of principal in respect of the Notes are made on each Payment Date commencing on the first Payment Date irrespective of whether such day is a Business Day.

The actual characteristics of the Series Receivables are likely to differ from the above assumptions used in constructing the following Table 1, which is only hypothetical in nature and are provided only to give a general indication of how principal cashflows may behave under various CPR scenarios. For example, it is not expected that the Series Receivables will prepay at a constant rate until maturity, that all of the Series Receivables will prepay at the same rate or that there will be no arrears or Losses on the Series Receivables.

Any difference between such assumptions and the actual characteristics and performance of the Series Receivables will cause the weighted average lives of the Notes to differ from the corresponding information in the table for each indicated CPR. It should not be assumed that the CPR would always be in the ranges as indicated in Table 1.
