1 IN 4 HOME LOANS NOW FROM NON-MAJOR LENDERS: AFG MORTGAGE INDEX

5 August 2013

Over 1 in 4 home loans processed last month were for non-major lenders, according to AFG, Australia's largest mortgage broker. This is the highest such figure recorded since AFG began reporting competitor trends in 2010. The latest AFG Mortgage Index, published today, shows that non-major lenders have increased their collective share of home loans from 20.7% in March to 26.4% in July.

Mark Hewitt, General Manager of Sales and Operations says: 'This figure may seem unexceptional by international standards. But in Australia more than 90% of all home loans are with only four lenders and their subsidiaries. To be seeing competition at this level is encouraging because it offers greater choice and helps keep rates down, both of which are good news for borrowers.'

Non-major lenders have grown market share among borrowers looking to refinance and investors, while maintaining their stronger market share among first home buyers.

AFG processed over \$3.4 billion of mortgages last month – an increase of 25% over July 2012. July is traditionally a quieter month for mortgages than August, and last month's strong figure reflects reports of active property markets over the winter.

However, there is no sign of overheating in the mortgage data. The average new home loan last month was \$401k, the same figure as last December. And Loan to Value Ratios (LVR) - the value of loans expressed as a percentage of the value of properties – remain steady on 68%.

Fixed home loans comprised 29% of all home loans processed by AFG – not far off the all time high of 30.7% recorded in April 2013.

Full data for all states is available at www.afgonline.com.au – 'In the News.'

DEFINITIONS

1. **Standard Variable:** includes the full range of features available.
2. **Basic Variable:** without some features, lower fees and rates.
3. **Intro:** also known as 'honeymoon' where the borrower is offered a very cheap initial rate (fixed or variable) before the loan reverts to a Standard Variable.
4. **Fixed:** interest rate is fixed for a nominated period before it reverts to a Standard Variable.
5. **Equity:** also known as 'line of credit' allows the borrower to draw out money up to a specified limit. Generally more expensive than Standard Variable loans.

NOTE TO EDITORS

AFG is Australia's largest mortgage broker. Established in 1994, the company now provides more than 20% of brokers nationwide with access to Australia's leading lending institutions, and has a mortgage book in excess of \$65 billion.
