

My Broker My Choice

18 March 2016

With the current broker remuneration review underway AFG has created a website, MyBrokerMyChoice to gather feedback from our feedback to help inform the current debate and to spread the word on the importance of the sector to consumers.

AFG is now opening it up to the rest of the industry and we will be collating a petition and suggesting visitors to the site email their members of parliament to express their support for the mortgage broking channel. We have already had a lot of activity from AFG members and their customers and would like to invite those across the industry to do the same.

Together with the petition and email template for MPs, there are also tools for brokers to share the information across their social media channels. It isn't branded AFG so we hope all those interested in the support of our industry get involved.

The site www.mybrokermychoice.com.au

AFG MD Brett McKeon is available for interview. Please let me know if you need any further info.
