Helping Australians find a fairer deal for over 29 years

Our founders saw an opportunity for mortgage brokers to provide a better solution for Australians' finance needs. So, 29 years ago, they founded AFG and helped to create an industry.

Today, we're just as passionate about brokers and the industry. We believe in our community of brokers, no matter how big or small. Australians trust their brokers with their biggest assets, and in turn, our brokers trust us with theirs.

When our brokers grow, we grow. Together, our brokers have built robust, secure, and successful businesses over the decades. We're proud of that legacy, and it's also a big part of why we're now one of Australia's most secure and prosperous mortgage aggregators.

Each year, in each state, we congratulate the very best in our industry. From recognising the Best New Broker to the Champion Broker Group and the success of many other broker categories in between, celebrating our best and brightest is in the AFG DNA.

Supporting our industry and community

We're committed to making a positive impact within our industry and the communities that we live and work.

Helping to tackle youth homelessness

We're incredibly proud to be the Principal Partner of [Foyer Foundation](#), an independent charitable organization that works with young Australians at-risk of, or experiencing, homelessness.

The Foyer model is an evidence informed, international best practice in helping disadvantaged young people, aged 16-25 years who are homeless or in housing need, to achieve the transition to adult independence.

At AFG we work to support our brokers to build their success. We call it 'brokering a better future'. By helping Foyer Foundation to wrap the support needed around these young people, we hope to play a part in helping them build a better future also.

Supporting our brokers' mental health

We know the stresses, pressure and day to day toll this job can take on the wellbeing of AFG brokers. It's for this reason, we have the [AFG Broker Assistance Program \(BAP\)](#).

The AFG Broker Assistance Program provides our brokers with funded access to a national network of professional mental health specialists facilitated in collaboration with a leading national mental health provider, [Mind&Matter](#).

Supporting Women in Finance

With over 3000 AFG brokers around the country, it's no surprise that we attract some of the top brokers in the country. One number we're particularly keen to grow is the number of female brokers in the industry and at AFG.

Our [Women on the Move program](#) is designed to support and advance women in finance broking and includes a range of initiatives such as:

- National calendar of networking events
- Scholarship based mentoring program
- Cross industry guest speakers
- Partnership with industry forums
